

EXTRA SESSION
WILL BE CALLED.Statement is Issued by Gov.
Stephens at Capitol.Will be for Sole Purpose of
Reapportionment.State Legislature Finally Ad-
journs Sine Die.(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 2.—For the purpose of accomplishing reapportionment of legislative districts of the state, a special session of the Legislature will be called, Gov. Stephens announced in a statement issued today.

The time will depend somewhat on the action of Congress in making the usual Congressional reapportionment among the several states, the Governor said, but the extra session will in any event be called in sufficient time to become effective before any preliminary steps are taken for the next general election.

The statement follows:
REAPPORTIONMENT.
The Legislature in both Senate and Assembly decided that it would not reach reapportionment legislation during the session just closed.

The Constitution of California, Section 4, Article IV, says, in part: "The census taken under the direction of the Congress of the United States in the year one thousand eight hundred and eighty and every ten years thereafter, shall be the basis of fixing and adjusting the legislative districts and the Legislature shall, at its first session after each census, adjust such districts and reapportion the representation so as to preserve them as near equal in population as may be."

That the mandate of the Constitution of the Legislature for the sole purpose of accomplishing reapportionment.
California is also entitled to several additional Congressmen. The number will depend on the action of Congress in making the usual Congressional reapportionment among the several states, but in any event it will be in sufficient time to become effective before any preliminary steps are taken for the next general election.(Signed) WILLIAM D. STEPHENS.
LEGISLATURE ADJOURNS.
The forty-fourth session of the California State Legislature ended today at 4 o'clock, when the adjournment was taken by the Assembly, the Senate having adjourned earlier in the day. Preliminary sessions were held by both houses last night.

Only three members—Ross, Eklund and Parker—were present in the Assembly when Speaker Wright asked for a motion to adjourn. Practically all the members of both houses left for their homes Sunday or early today.

LUCY QUILTS
IRISH RELIEF
CAMPAIGN.Says Business Forces Him
to Resign as Director of
Financial Drive.(EXCLUSIVE DISPATCH.)
NEW YORK, May 2.—Capt. John F. Lucy, national director of the financial campaign of the American Committee for Relief in Ireland, has withdrawn from active participation in the effort, and resigned as director.

"Business obligations make it absolutely necessary for me to be in Canada and Mexico during the next several weeks," said Capt. Lucy, "and I want to have the committee free to have a man at the head of the work who can be on the job every day."

"I have been much impressed with the evidence with which the committee to conduct its money raising without political propaganda, and along the most direct lines, has been in a position to continue my share of responsibility for its program, I would do so."

BERLIN GIVEN
SEVERE JOLT.

(Continued from First Page.)

meeting today is understood to have been due to the long discussion over the guarantee to be demanded of Germany, there being at the start a considerable divergence of opinion as to whether an agreement was reached.

Should Germany fail to accept the terms, French plans for a possible naval demonstration by the British, will be carried out, and the proceeds of German revenue, such as customs, will be appropriated towards payment of the annual obligation.

WILL NOTIFY BERLIN.
The reparations commission will notify Germany within four days of the sums payable and the conditions of payment. Germany's reply must be acceptance, without reservations or discussion. If such affirmative action is not received by the evening of May 12 the occupation will begin.

The time taken today's meeting are regarded by the French delegation as measurably satisfactory. They first and then informed Germany of the Allies' minimum requirements.

George's conviction that British public opinion would not willingly support occupation until Germany had been given another chance, M. Briand yielded. But he probably obtained British naval co-operation to the extent of a demonstration before Hamburg.

TROOPS CALLED UP.
(BY CABLE AND ASSOCIATED PRESS.)
PARIS, May 2.—Minister of War Barthou tonight issued an order calling the class of 1919 as the colors, except men who have served in the Orient and in Morocco and men belonging to the auxiliary services.

When detachments have been sent to the Rhine, the Thirteenth Dragoons, stationed at Metz, will be sent to the Rhine. The Fifth Cavalry Division and a combined regiment of the Thirteenth Dragoons and the Fifth Cavalry Division, the last mentioned units are under the orders of the Thirteenth Dragoons.

MANY ARE EXEMPT.
Qualifications of a part of the class of 1919 were practically certain. The men will be notified individually because of the wholesale exemptions granted to students and farmers.

Immediately on receipt of an order the soldier notified must proceed at once to his unit or corps. Mobilization will be carried out on a strict basis, the mandate of the Constitution of the Legislature for the sole purpose of accomplishing reapportionment.

LEAVE FOR RUHR.
(BY CABLE AND ASSOCIATED PRESS.)
FRANKFURT, May 2.—The French military headquarters in the Rhine region today announced that the mandate of the Constitution of the Legislature for the sole purpose of accomplishing reapportionment.SACRAMENTO BANKER
SUED FOR DAMAGES.
(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 2.—Sue to recover damages of \$48,478 from Orlando A. Robertson, Sacramento banker, for alleged fraudulent land deals in connection with the defunct Daniel Hayes Land Company of Idaho, has been filed in Federal Court here by Lewis W. Van Nostrand of Fairfield, Iowa, it became known today. The suit was filed Saturday and involved lands in the Chowchilla range of Modoc county.

Charges allege that Robertson purchased the Chowchilla National Bank at Chowchilla and through that institution sold land within the Chowchilla range to the Daniel Hayes Land Company, which later became insolvent. The complaint alleges that through the land company Van Nostrand was induced to purchase several hundred acres of "hardpan" or worthless land, and that he paid \$11,000 of acres of similar lands within the 100,000 acres of the ranch.

Van Nostrand alleges that the land was misrepresented.

New Ordnance Piece Shown to Senators Has Powerful Kick.

New Christie Gun and Mount.
The new Christie gun and mount which has been on exhibition in Washington recently is being considered as a new addition to the equipment for the United States Army. Recently the Senators took a look at the new piece and watched it perform tricks just to show what it could do. The mount weighs six and one-half tons and carries the new American 75 rifle. This huge machine recently made a trip from New York to Washington in seventeen hours.STOKES MOVE

tor Miller, and usually slept with W. E. D. Stokes, Jr. He stated that at the time of the alleged incident in December, 1919, he was 21 years old, one the just notified, would be up along this line may be attempted after more thorough study of the opinions.

SAYS WOMAN LIVED.
Dr. Edward Wallace Lee contradicted statements by Mrs. Genevieve LeCroz de Anouins one of the most active witnesses for Stokes, that she was not in the plaintiff's employ.

Dr. Lee said that Mrs. De Anouins told him that she was employed by Stokes in special research work. The witness said:

"I asked her if Dr. Stokes had a laboratory, as I did not know the Stokes to whom she referred, and she said her research work was relative to her employer's suit for divorce."

Bernard Sandler, attorney for Henry Williams, a Pullman porter, indicted for the theft of Mrs. Stokes' jewelry on a dining car at Buffalo, a few years ago, testified that Stokes furnished him with a list of questions to ask Mrs. Stokes when she took the witness stand at the near's trial.

One of her allegations of cruelty in Mrs. Stokes' counter-claim for a separation is that her husband threatened that photographs of Mrs. Stokes, which were in her album when her husband took possession of it, and kept it, had been shown to him by the agents of Stokes.

IDENTIFIES PICTURES.
Mrs. Stokes followed the attorney on the stand and testified that she did not pose for several pictures alleged to be of her. She insisted that she answered all the questions on the list which Atty. Sandler said had been delivered to him by a Stokes agent. Two questions to which Mrs. Stokes gave an indignant denial were:

"Did you ever disguise yourself as an old woman soliciting alms for charity and slip out of your apartment for all night parties in that disguise?"

"Did you not, while in such disguise, solicit alms from your husband and then go laugh with your friends at the manner in which you were fooling him?"

The witness ended today Mrs. Stokes' attorneys announced that their case was finished except for the testimony of Stokes.

ELECTION LAW
IS HELD VOID.

(Continued from First Page.)

knocked out the present law so far as it related to primaries the state of Justice McKenna indicated that a new law, exactly similar to the one just notified, would be up along this line may be attempted after more thorough study of the opinions.

Senator Newberry was at his home in Detroit when the decision was handed down. Following his conviction on March 20, 1920, the Senator, announcing that he would not participate in its proceedings, until he was set free by the Supreme Court. It is expected that he will resume his seat in the Senate.

The Supreme Court decision does not finally settle the question of Mr. Newberry's right to his seat in the Senate. The Senate Privileges and Elections Committee still has before it the charges filed by attorneys for Henry Ford, charging unlawful conduct and corruption in the election following the primary. Senator Spencer of Missouri, chairman of the subcommittee, which has been investigating the Newberry case.

WORK UNAFFECTED.
"Our work is entirely unaffected by the court's decision and before it was announced we had made plans to continue our hearing. We will convene in the near future and still give both sides an opportunity to present any additional evidence they desire. The committee will not allow the evidence at Grand Rapids to be resubmitted, but will confine ourselves to the new evidence that has been presented."

NO COMPROMISE
WITH STRIKERS.

(Continued from First Page.)

opening for an adjustment of a nationwide shipping strike, involving thousands of employees on a majority of American ships on the Atlantic.

Walkouts in response to the calls of the union leaders began today, preceded in most cases by a twenty-four-hour notice by the men that they would leave. In New York more than 100 ships were affected, on all of which at least some of the men walked out.

ENGINEERS STAYING.
Reports to the Steamship Owners' Association were that many of the engineers were refusing to leave. Of these ships more than a dozen are passenger liners.

The Mailory, Southern Pacific and other Coastwise lines received notice from many of their men that they would strike.

W. L. Marvin, general manager of the Steamship Owners' Association, said approximately forty per cent of the American flag tonnage was idle—due to lack of cargo offerings. The owners today, in resolutions, would be out. Union leaders placed the number at over 125,000.

RADIO MEN STRIKE.

(BY A. P. NIGHT WIRE.)

BALTIMORE, May 2.—W. W. Tingle, local director of the United States Shipping Board, announced today that none of the American owned ships will clear this port either today or tomorrow, unless orders are received from Washington acknowledging that the union has given in to a reduction of 15 per cent in their monthly wages.

Thirty operators of the local United Radio Telegraphers' Association were reported on strike here. Police reserves were sent to a Pratt-street this afternoon to put a stop to picketing by union men on the pier.

SIX SHIPS TIED UP.
(BY A. P. NIGHT WIRE.)
GALVESTON (Tex.) May 2.—Six United States Shipping Board vessels are tied up in the port of Galveston as the result of the marine workers' strike. Seamen, cooks, stewards, engineers and firemen quit the steamers yesterday morning.STEAMER WITHOUT CREW.
(BY A. P. NIGHT WIRE.)
SEATTLE, May 2.—Call for deck and engineer officers for the Shipping Board steamer Elsie due to leave here for Portland, Or., to load cargo for the United Kingdom was ignored and the ship remained in port today.

No further sailings of American vessels from this port are scheduled until tomorrow.

PORTLAND (Or.) May 2.—Operators of the steamer West Hindrod, loaded with flour for Europe, expected to get the vessel out of Portland today with a nonunion crew.

The West Hindrod is one of the four steamers tied up here.

OLDERS WALK OUT.
(BY A. P. NIGHT WIRE.)
NEW ORLEANS, May 2.—The first actual developments in the marine strike here came today, when shipmen left two Shipping Board vessels.

VANCOUVER (B. C.) May 2.—This port will not be greatly affected by the United States shipping strike, according to local officials. The only line flying the American flag running into this port is the Canadian Pacific, and officials of that company stated all its coastwise ships would continue to operate.

VICTORIA (B. C.) May 2.—The United States shipping strike has no effect on shipping here, maritime men said. The arrival of the Shipping Board steamer West Hindrod here May 5 from Antwerp via San Francisco, may be delayed by the strike.

ST. JOHNS (N. F.) May 2.—Shipping was tied up by the wharves today as a result of a strike of longshoremen against a wage reduction. Many vessels were able to get away in time to avoid the tie-up.

ESPEE NOT AFFECTED.
H. C. Hallmark, general freight agent for Southern Pacific Company, announced that the strike of marine workers has not affected the Southern Pacific Company's Morgan Line—Sunset Gulf steamers operating between New York and Galveston.

Los Angeles Harbor was in no way influenced by the strike. None of the crews in the harbor left the wharves today, and no interruption in the through service between New York and Los Angeles and other California points via this route.

What's Your Message?

The mail-carrier delivers a bagful of messages; messages of weddings and deaths, of goings and comings; messages of joy and sorrow, of vital interest and of no interest whatever. The great heronion envelope and the flimsy trade circular may go to the same house.

So the advertising columns of magazines and newspapers carry messages of great interest, little interest, or perhaps of no interest at all.

The postman faithfully delivers the messages with which he is entrusted. So also the publications deliver the messages they carry.

But what of the message itself?

Will it command attention?
Is it interesting reading?
Can it be implicitly believed?
Will it "get action"?

Some people find advertising more interesting than the editorial text.

There are men who can make advertising interesting and productive.

We know who these men are—ask us.

FOCH, BEATTY ARE INVITED.

Distinguished Guests Get Bid to Legion Meet.

Both Expected to Attend the Kansas City Reunion.

Callithra is Confident That Bergdoll Will Return.

WASHINGTON, May 2.—Today Col. Thomas W. Miller, Allen Property Custodian and also a member of the executive committee of the American Legion, presented an invitation from the Legion members, through the British Embassy and American diplomatic channels, to Viscount Beatty of England, admiral of the fleet, to attend the annual convention of the Legion in Kansas City, Mo.

A similar invitation was extended by Col. Miller through the French embassy to Marshal Foch, of France.

The members of the Legion seem to have advanced information which makes them quite sure that the admiral will be present at the roll call of the delegates to the service convention.

Col. Miller said that he was confident that Bergdoll would return.

He said that he was confident that Bergdoll would return.

BIG DEMAND FOR SILK STOCKINGS.

Women Still Buying Fine Hosiery, Says Federal Reserve Board.

WASHINGTON, May 2.—The demand for silk stockings has become so insistent that even the Federal Reserve Board has been forced to recognize the fact in its review of the nation's business condition. Here is a paragraph from the latest report:

"Hosiery—It is stated in the report from District No. 2 (Philadelphia) that there has been a general improvement in the hosiery industry during the last month and that the demand for silk lines has been especially marked. The demand for hosiery has shown an improvement during the month, but it is estimated that it is only about 50 per cent of a normal year."

It is evident that there is no slackening on the part of the Legion members to their endeavor to get this rich chief of the slacks within the boundaries of the United States to be given what the Legion men think is coming to him. It is probable that Secretaries Hughes and Weeks eventually would have secured the release of the two American sergeants who were thrown into a German prison for attempting to arrest Bergdoll, but their action was not so important for their action.

WEEKS'S ASSURANCE. Secretary Weeks has assured the American Legion officials and all other service men that the Bergdoll matter will be straightened out to the honor of the country and to the satisfaction of the men who served. Bergdoll is coming back, whether he wishes or not.

Let this week it is believed that the lists of the names of American slacks, which have been held up for some time will be made public.

Col. Thomas W. Miller of the executive committee of the Legion said today:

"When these lists are published and the wheels of justice are set in motion the thousands of persons who have been held up through cowardice and in defiance of the law will be brought back."

SLACKERS' LISTS. The publications of these lists will cause sensations in various localities in the United States. Men known to their communities as cowards, by names brought before the public as those of slacks, who are willing to see other men die or be wounded in their stead.

It will be hard work for a man to live down the stigma, which will attach to him when he publicly tries to be branded. In addition to being pilloried before the people he is likely to be sent to Leavenworth or Atlanta, or some other place equally pleasant to serve his months or years in contemplative retirement.

There has been an impression that the names would be kept in the files of these thousands of slacks except to print their names. The argument has been that there had

FOREIGN TRADE MEET IS NEAR.

Council Gathers in Cleveland Wednesday.

New Tariff Will Have First Consideration.

Noted Men of Business Will be Present.

CLEVELAND, May 2.—Questions of immediate importance to every manufacturing interest in America, and indirectly to every citizen, will vitalize the discussions of the National Foreign Trade Council, whose annual convention will be held here May 4 to 7.

First up for consideration will be the tariff. A demand embodying the sentiment of the convention on the proposed new tariff law will be made. Inclusion of an "elastic" clause will be urged by many delegates.

Next will come the matter of foreign financing. The keynote will be sounded by W. P. G. Harding, chairman of the Federal Reserve Board, in an address on "Frozen Credit—What They Are and How to Thaw Them."

DOUBLE TAXATION. The third important consideration before the convention will be that of "double taxation" of foreign investments—a practice which manufacturers and bankers and railroad men from various parts of the country, already have announced they will attend the convention. It is believed that it probably will be the most comprehensive gathering of industrial and financial executives on record.

Some of the men who have registered for the meeting are E. A. G. Clarke, president Consolidated American Corporation, New York; Edward N. Hurley, formerly chairman of the Shipping Board, Washington, D. C.; A. S. Franklin, president International Mercantile Marine, New York; H. D. Williams, president Carnegie Steel Company, Pittsburgh; James W. Hook, president Allied Machine and Steel Works, New York; W. S. H. Horner, president National Association Sheet and Tin Plate, Birmingham, Ala.; William C. Redfield, president American Manufacturers' Export Association, New York.

MELLON'S ESTIMATES. MAKE THEM SIT UP. CONGRESS LEADERS TALK OF ELIMINATING OBJECTIONABLE TAXES.

WASHINGTON, May 2.—Secretary of the Treasury Mellon's latest estimates of probable revenue and expenditures during the next fiscal year caused Congressional leaders who talked of eliminating objectionable taxes without providing substitutes to admit today there is no longer any chance to carry out such a program.

The secretary's recommendation relative to revision of tax laws were anticipated and followed largely by the policies adopted by the Treasury Department under the former administration. The unexpected features of the estimates were the revision of estimates which reduced the deficit from \$1,154,465,000 to \$1,124,932,000 in the fiscal year 1922.

Representative Fordney called the attention of the House today to the secretary's estimates and obtained permission to have 500 extra copies of the Mellon letter printed in order that it may be widely distributed.

ANOTHER FEDERAL JUDGE IN ARIZONA.

SENATE PASSES BILL CREATING NEW BENCH JOB; ALSO REGULATES MINERS.

WASHINGTON, May 2.—The Senate passed a bill to create an additional Federal judgeship in the District of Arizona. The measure to make the annual period during which miners are required to perform a certain amount of work on their claims correspond with the fiscal instead of the calendar year, also passed.

These measures now go to the House.

ARMY BOXER KILLED IN CONTEST AT FORT

(BY A. P. NIGHT WIRE.)
FORT TOWNSEND (Wash.) May 2.—Emmanuel (Kid) Russo, a boxer from Fort Picher, Wash., was killed last night in the military hospital at Fort Worden as the result of a boxing contest. Russo, a native of Russia, was a member of the military police and was known to the people of the fort as a "fighting" man. He was killed by a blow to the head during a fight with a man named Walter P. Evans, a private in the same regiment. The fight was held at the request of a crowd of soldiers and was witnessed by a large number of men. The cause of the fight was a bet on the outcome of the contest. Russo was taken to the hospital and died of his wounds. The military police are investigating the cause of the fight.

RECREATION ORDERED FOR KERN COUNTY

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 2.—The State Supreme Court issued a writ of habeas corpus today to permit Miller & Lux to go to Kern county to operate a recreation area. The writ was issued after a hearing on the application of the company. The court found in favor of the company and ordered that they be allowed to operate the area. The area is located in the Kern River valley and is a beautiful spot for recreation. The company has been operating the area for some time and has been successful in attracting a large number of visitors. The writ was issued by a majority of the court.

BOXING COMMISSION DON'T LIKE THE BOUT.

(BY A. P. NIGHT WIRE.)
CLEVELAND (O.) May 2.—Acting on reports that the proposed ten-round decision bout between Johnny Kilbane, featherweight champion, and Freddy Jacks, English featherweight, would prove an unsatisfactory exhibition, the Cleveland Boxing Commission today wired to New York for Jack's record in bouts in this country and information concerning his ability. Reports reached the commission that Jacks would not prove a formidable opponent for Kilbane.

MURCHISON HEAVES A NO-HIT CONTEST.

(BY A. P. NIGHT WIRE.)
HARRISBURG (Pa.) May 2.—Tim Murchison, an old-time major league pitcher, hurled a no-hit, shutout, in a game at Murphysboro yesterday. Pitching for Harrisburg he struck out fifteen men and passed two, the latter being the only opposing batsmen to reach first base. In addition Murchison made two singles and two doubles in four times at bat.

BOXING COMMISSION DON'T LIKE THE BOUT.

(BY A. P. NIGHT WIRE.)
CLEVELAND (O.) May 2.—Acting on reports that the proposed ten-round decision bout between Johnny Kilbane, featherweight champion, and Freddy Jacks, English featherweight, would prove an unsatisfactory exhibition, the Cleveland Boxing Commission today wired to New York for Jack's record in bouts in this country and information concerning his ability. Reports reached the commission that Jacks would not prove a formidable opponent for Kilbane.

MURCHISON HEAVES A NO-HIT CONTEST.

(BY A. P. NIGHT WIRE.)
HARRISBURG (Pa.) May 2.—Tim Murchison, an old-time major league pitcher, hurled a no-hit, shutout, in a game at Murphysboro yesterday. Pitching for Harrisburg he struck out fifteen men and passed two, the latter being the only opposing batsmen to reach first base. In addition Murchison made two singles and two doubles in four times at bat.

A couple of snapshots of the competitors in the California-Nevada trapshoot at the Los Angeles Gun Club. The party draped over the board fence above is Bob Bungay, who led the field yesterday, slaughtering 144 out of 150. The lower photograph shows a line-up of the target busters yesterday afternoon with Mrs. E. L. King in the foreground. There are several lady snipers competing, all of whom swing a mean Winchester.

DONATE TROPHIES FOR THE ATHLETES.

(EXCLUSIVE DISPATCH.)
POMONA, May 2.—Additional impetus will be given to excellence in high school athletics from the individual point of view by the announcement today by the Pomona Athletic Association that it has organized a trophy fund. The fund is for the purpose of donating a trophy to the winner of a number of trophies and medals by the merchants of Pomona and by the business men's booster committee. There will be five medals and five silver cups. A tournament will be started before long in wrestling and medals will be given for the winner in each of the following classes: 115 pounds, 135 pounds, 155 pounds, 175 pounds and heavyweight.

MANUAL ARTS BEST DRILLED OF SQUADS.

In a competitive R.O.T.C. drill in which thirteen high school teams of Southern California competed at Pomona College last week the Pomona College team was the best drilled squad in close and extended order proved to be Manual Arts of Los Angeles, Harvard Military Academy running the Artisans a close second.

The Manual Arts squad was composed of Max Miller, corporal; Earl Gardner, Earl Eiser, George Albee, Ted McCoskey, Dan Huddleston, Robin Humphreys and Gorrell Nordwale. Sinclair Driver was the substitute.

WELLING DEFEATED.
(BY A. P. NIGHT WIRE.)
BOSTON, May 2.—Johnny Clinton of Boston was awarded the decision over Joe Welling of Chicago tonight.

Carl Tremains of Cleveland knocked out Terry McCus of Philadelphia in the fifth round. Bobby Dyson of New Bedford, with his left hand maimed after the fourth round, was awarded the decision over Earl Puryear of Denver.

ROSS A BENEDECT.

PALO ALTO, May 2.—Norman Ross, world's champion swimmer, and Miss Beatrice Franklin Dorett, formerly of Honolulu, were married here today. After a honeymoon at Del Monte and Portland they will make their home in Chicago.

CONFAB ON ECONOMY RUN.

Officials who will serve on the Camp Curry Yosemite economy run held an important meeting yesterday, at which time final rules were discussed and several things of importance to entries and public alike were thoroughly taken up.

Serving on the rules committee this year are George F. Stephenson, technical representative of the Pacific Rubber Company, official scorer; Roy H. Meade, president of the Pacific Rubber Company, official scorer; H. S. Rounselle, assistant scorer; H. F. Weller, manager.

On Wednesday night at 7:30 o'clock, at the Electrical Equipment Company, 1240 South Hope street, a meeting of drivers and observers will be held at which time the officials will fully explain all rules pertaining to the run.

Yesterday mechanics were busy over the cars which are to enter by the competing concerns and already there is developing the keenest sort of friendly rivalry between the supporters of the various entries.

Final mail entries brought the total number of cars entered for the annual event up to twenty-one—the high entry mark list for the economy event. The final entry list now reads as follows:

Gardner by McGill Motor Company; Maxwell by Union Motors, Inc.; Scripps-Booth by Scripps-Booth Company of California; Nash six by the Troy Motor Sales Company; Saxon Duplex by the J. V. Baldwin Motor Company; Stephens Salient six by the White Auto Company; Davis six by H. L. Gormit Motor Sales Company; Reo six by Earle C. Anthony, Inc.; Chalmers six by Greer-Robinson Company; Tulsa four by Tulsa Motors Corporation; Briscoe by the Boulevard Motors Corporation; Lexington by the Lexington Los Angeles Company; Haynes 41 by Chessman & Co.; Franklin by Ralph Hamlin, Inc.; Dupont by Mark Motor Company; Templar by the Boulevard Motors Corporation; Stearns-Knight by Lynn C. Buxton; Apperson by Apperson Motor Car Company; Premier by F. C. Schoen; Packard twin-six by Earle C. Anthony, Inc.; Dorr by Albert J. Russell.

JOHNNY BUFF PUTS IT ON EDDIE O'DOWD.

(BY A. P. NIGHT WIRE.)
NEW YORK, May 2.—Johnny Buff of Jersey City, American flyweight boxing champion, received the judges' decision over Eddie O'Dowd of Columbus, O., after a twelve-round bout tonight. A \$2500 belt, emblematic for the title, was brought against him by P. P. Spellman, for royalties alleged due. The heavyweight champion appeared in defensive work. He made the champion miss often during the first three rounds. After that Buff did considerable damage with a left hook, causing O'Dowd's mouth to bleed, and took the remaining rounds.

Jack Sharkey of New York was awarded the judges' decision over Midget Smith of New York, after a twelve-round contest.

Andy Chaney of New York, won the judges' decision over Sammy Siegel of this city in twelve rounds.

DEMPSEY MUST GO TO COURT IN SUIT.

(BY A. P. NIGHT WIRE.)
BUFFALO (N. Y.) May 2.—Jack Dempsey must appear in court in Buffalo, Monday, even if he has to break training, if he wants to defend in person a suit for \$100,000 brought against him by P. P. Spellman, for royalties alleged due. The heavyweight champion appeared in defensive work. He made the champion miss often during the first three rounds. After that Buff did considerable damage with a left hook, causing O'Dowd's mouth to bleed, and took the remaining rounds.

Festive Angler Has Great Day With Line; Colima Fights Kid Mexico.

"SOME OPENING" BOYS ALL SAY.

More Fish as Well as More of Fishermen This Year.

Good Sport Wherever Crows or Water Gave a Chance.

Turnout of Anglers Beyond All Precedent Anywhere.

Not only were all records for "Opening Day" fishing shattered to smithereens Sunday, May 2, but the fish and game commission by its patrolmen indicate the best sport, and the most of it that was ever known in Southern California, combined with ideal weather to make "May Day" a general "Rainbow Day" by no means limited to the celebration of the wide-awake Bishop Owens Valley Chamber of Commerce.

The sportsmen's patrol force collectively scanned thousands of licenses, and every random inquisit had the biggest crowd to handle of any. Never was there ever seen anything like it, not anywhere. The bass reservoirs were crowded as badly as the trout lakes and streams. And nearly everybody got some fish. Last year's heavy plagues certainly seem to have "made good" generally.

The first limit on Big Bear Lake is officially credited to the veteran guide Jack Lloyd by Dep. Fish and Game Commissioner Bill Malone, who reports Jack checked his 1-2-3 limiters at 6:30 Sunday morning.

There were hundreds of limits, and that was the average size. Everybody was happy.

Little Bear Lake turned out the best day's fishing it has shown in six years, when no less than 162 anglers reported the limit. Fish averaging about a pound as they did in the hey-day of Little Bear's glory as an angler's resort. Herd in a wonderful proof of the way our California trout lakes and streams are doing.

Deep Creek and Holcomb Creek and the Santa Ana were too high for the best fishing, but that did not deter hundreds from fishing there, with very fair success. In general, the streams draining the snow-shed were too high; those to the south, however, were just right.

Some idea of the crowd can be gathered by reports of Deputy Madison that Snow Creek Canyon was a procession with everybody carrying his own rock; at Clark's ranch, no less than eighty-four cars were parked with choice of the creek down the Seven Pines trail, or the lower end of middle Santa Ana.

Kirk Vernon snatched a limit out of the San Antonio, and Fish and Game Commissioner M. J. Connell also opened the record on the same stream. Little Bear produced some nice limits of moderate sized fish. The streams above Elizaveta were given the worst whipping in their history. Dry Creek and the Santa Ana both showed a surprising catch of fish from the last two years' drought.

There were very few cars in Waterman Canyon, and the old limiters in San Bernardino were high. Smith held up both hands. They couldn't get license tags enough to go out the new canyon who had taken the fever.

The next question is, where are we going to find enough water to raise limits for all these folks? The limits of bass appear to be the rule. Chatsworth and Fernando reservoirs were fairly taken by storm.

ALBERTSON IS DEALER PREXY.

(Continued from First Page.)

earned national recognition for its many aggressive. Tribute was paid Bob Roberts, the secretary of the body, with effusions at the Ante Club, for his wholehearted devotion to the interests of the association during the past year by Albertson, and committee heads were also given words of appreciation by the executive for their work in the past.

KELLY HITS HOMER.

(By A. F. Night Wire.)

NEW YORK, May 2.—The New York Nationals made it three straight from Boston today, winning, 3 to 1. The Giants knocked out four runs off Watson in the first inning, from a base on balls with two strikes and a home run by George Kelly, his seventh of the season. The score:

BROWNS WIN OUT.

(By A. F. Night Wire.)

DETROIT, May 2.—St. Louis won the last game of the series from Detroit today, 4 to 1, after thirteen innings. Lefty Grove, the St. Louis pitcher, pitched a perfect game, allowing only one hit, a single to the outfield by Detroit's Earl Brown, who scored the winning run in the thirteenth. Thirteen Detroiters were given bases on balls, but the visitors played well in the pinches, twenty-one Tigers being left on the bases. The score:

	ST. LOUIS	DETROIT
Runs	4	1
Hits	10	4
Errors	0	1
Bases on balls	2	1
Strikes	10	10
Left on base	1	2

FANS GET KICK OUT OF GAME.

(Continued from First Page.)

LET'S OUT BLEAT.

The young lady glombed the situation—gulped down her life saver as fast as possible and let out a bleat that would awaken the seven sleepers. Four hours were three kicks in one for the price of a single admission and the young lady's case was only one of thousands of others at this critical moment.

After a hectic session of pent-up, unrelieved feelings all afternoon, the big moment came to the home fans when Lyons lifted the all into unknown regions. Then that ecstatic thrill felt many different ways by many people. Some were so excited and exalted pitch and gave that kick that will draw the same fans back to the same spot every Sunday.

After a hectic session of pent-up, unrelieved feelings all afternoon, the big moment came to the home fans when Lyons lifted the all into unknown regions. Then that ecstatic thrill felt many different ways by many people. Some were so excited and exalted pitch and gave that kick that will draw the same fans back to the same spot every Sunday.

WAGE REDUCTIONS CAUSE

THOUSANDS TO STRIKE.

Union Paper Makers, Livestock Hand-
lers, Building Trades Workers Out;
Many Eastern Cities Affected.

NEW YORK, May 2.—More than 8000 members of the In-
ternational Brotherhood of Pulp, Sulphite and Paper Mill Work-
ers have struck against wage reductions in the paper-making
industry, the Labor Bureau announced today.

The principal companies affected,
it was stated, were the Minnesota
and Ontario Paper Companies, the
International Paper Co., the Fort
Frances Pulp and Paper Company
at Frances, Ont., and the Interna-
tional Paper Company, with mills in
twenty-two towns in the East.

"According to President J. P.
Burke of the union," said the state-
ment, "it appears that the com-
panies will make no attempt to op-
erate their mills with nonunion men."

MILL IS CLOSED.
CLOQUET (Minn.), May 2.—Five
hundred employees of the North-
western Paper Company are idle today
and the mill is closed following the
refusal of the men to accept a
reduction in wages and the desire of
the company to operate the "open
shop." The company's plant at
Brainerd, employing 125 men, was
idle.

MEAT-CUTTERS STRIKE.
CHICAGO, May 2.—Although 150
carpenters today joined the Live-
stock Handlers' Union on strike at
the stockyards in protest against a
proposed wage cut of 3 cents an
hour, there was no further extension
of the walkout.

An attempt was made to have the
Amalgamated Meat-Cutters join
with the live-stock handlers, but
Walter Bankowski, secretary of the
meat-cutters, said:
"We're not going out with these
fellows. Their quarrel is not
ours."

Although union leaders claimed
1150 men were out, the day's re-
ceipts of live stock, 1300 cars, were
handled without difficulty, accord-
ing to the stockyards company.

Many farmers accompanied their
shipments and their, with the help
of the railway men, took care of all
receipts.

Company officials said they had
offered to arbitrate, but that this
had been refused by the men and
the strike was in defiance of the
national agreement.

YOUNGSTOWN (O.) May 2.—
About 6000 building trades workmen
are idle today as the result of the
building union's refusal to accept

JOB PRINTERS OUT ON STRIKE.

Employers Refuse to Stand for
Forty-four-Hour Week.

Many Union Shops Closed in
All Parts of Country.

Little Inconvenience Felt in
Los Angeles.

SAN FRANCISCO, May 2.—Union job
printers here were closed today
as the result of a strike
which affected more than fifty cit-
ies. It applied to the book and job
printing industry.

The issue, according to the em-
ployers, was the forty-four-hour
week.

In Chicago the shorter week went
into effect today in the union shops
according to agreement. The em-
ployers posted notices Saturday that
pay would be at the old hourly rate
or that forty-hour pay would be
given for forty-four hours work.

OLD WEEKLY RATE.
The unions were said to take the
position that the old weekly rate of
earnings should apply.

In Chicago it was estimated that
between 4000 and 4500 job printers
struck. The employers said it was a
walkout, the union that it was a
lockout.

While claims of 4000 to 4500 men
on strike in Chicago were made by
union leaders and 1500 in New
York State, other parts of the coun-
try felt the blow in a smaller de-
gree. Pittsburgh reported 1000 men
out; Denver, 725; St. Louis, 850,
and a lesser number in Springfield,
Mass., Worcester, Mass., New Britain,
Conn.; St. John, N. F.; New Haven,
Buffalo, Baltimore, Lancaster, Pa.;
Duluth; Fargo, N. D.; Grand Forks,
N. D.; Toledo, Omaha, Houston and
San Francisco.

WILL MAINTAIN STAND.
W. H. Barnes, secretary of the
Chicago Forty-four-Hour League of
Employing Printers, declared to-
night after a meeting attended by
ninety-three employing printers who
maintain open shops that the em-
ployers would maintain their stand
for the forty-four-hour week.

"The unions are demanding a
forty-four-hour week, with forty-
eight hours' pay," he said. "This
is considered by employing printers
of Chicago and thousands of union
and nonunion shops throughout the
country, as an unjustified request
in the face of the present demand
by the public for a reduction of
prices."

The employing printers feel it is
their duty to do everything possible
to reduce printing prices. They
have taken it upon themselves to
wage the battle now going on and
do not intend to decrease produc-
tion, which would tend to increase
costs.

INDIANAPOLIS, May 2.—Of-
ficials of the International Typo-
graphical Union, after checking re-
ports received today on the in-
auguration of strikes to enforce
demands for the forty-four-hour
week in job and book printing of-
fices, predicted that less than 10,000
would be idle. John McFarland,
president, said complete figures
would not be available until late to-
morrow.

McFarland said few newspapers
would be affected. The strike will
not affect newspaper printing plants
unless an effort is made to employ
nonunion printers in offices where
newspaper and job-printing plants
are combined, he said. Union of-
ficials declared the sporadic strikes

could only be brought to an end by
local agreements.

OUT IN BAY CITY.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 2.—Execu-
tives of the Typographical Union said
that approximately 250 printers, or
50 per cent in the commercial shops
who demand a forty-four-hour week,
went on strike today. The strikers
are demanding the old rate of pay
as well as the shortened week.

STATE OFFICE NOT AFFECTED.
(BY A. P. NIGHT WIRE.)
SACRAMENTO, May 2.—About
forty printers employed in all job
printing shops of Sacramento were
on strike today for the forty-four-
hour week. The strike did not af-
fect the State Printing Office, which
was considered by the printers as
not having been considered in the
demands.

PRINTERS RETURN TO WORK.
(BY A. P. NIGHT WIRE.)
FRESNO, May 2.—Though a
strike of commercial printers in
Fresno job shops was called this
morning, after a general walkout
men in four establishments in the
city are back at work, following the
signing of an agreement by the
city and the Printers' Board of Trade,
composed of employing printers in
the Bay city.

When the printers strike went
into effect in Los Angeles yesterday,
according to Seneca C. Beach, man-
ager of the Master Printers' Asso-
ciation, eight men, one woman and
a boy failed to report for work in lo-
cal shops. This number, Mr. Beach
asserts, is not as large as the regu-
lar number of "quits" in the average
week.

More than a month ago forty local
printers and linotypers quit open
shops in which they were employed,
when they heard that their employ-
ers did not intend to grant the forty-
four-hour week. These men are
still out at the employing printers
say they do not intend to take
them back.

According to reports, about
twenty-five print shops in this city
have signed the forty-four-hour
agreement with the union, and 125
or more have refused to adopt it.

Evils of Constipation.
Perhaps the most serious of the
diseases caused by constipation is
appendicitis. If you would avoid
this dangerous disease, keep your
bowels regular. For this purpose
Chambers' Coughs are excellent,
easy to take and mild and gentle in
effect.—Advertisement.

CHICAGO IN THROES OF "RENT REBELLION."

EIGHT HUNDRED AND TEN
EVICITION SUITS FILED IN DAY.
MORE TO FOLLOW.

(EXCLUSIVE DISPATCH.)
CHICAGO, May 2.—With \$10 evic-
tion suits filed against tenants today,
landlords and owners had their in-
ning in Chicago's "rent rebellion."
The number of suits filed sets a re-
cord for the Municipal Court and
hundreds more are expected to be
placed on the books tomorrow.

In some cases landlords attempted
to obtain possession of their flats
while vans loaded with household
goods of new tenants waited out-
side. They found doors and win-
dows barricaded and the "sit tight"
instructions being literally obeyed.
The only recourse of the landlords
was to shut off the gas, water and
electric supplies, compelling ad-
justment of the disputes.

From many landlords came re-
ports of compromises with landlords
meeting tenants' half way on the
question of rent increases. Many
landlords were reported awaiting
action by the legislature tomorrow
on the six months "stay of eviction"
bill, before taking legal proceedings.

SOVIET AUTHORIZES
COINAGE OF SILVER.
(BY CABLE AND ASSOCIATED PRESS.)
RIGA, May 2.—Coinage of silver
has been authorized by the Russian
soviet government, it is said in
Moscow newspapers, the Bolshevik
government having reversed its po-
sition after having held out for a
complete abolition of money.

This was due, it was reported, to the
desire of the government to satisfy
the peasants, who were distrustful
of paper notes.

REFUSES TO REVIEW
TEXAS DECISIONS.
(BY A. P. NIGHT WIRE.)
WASHINGTON, May 2.—The Su-
preme Court refused today to re-
view the decision of Texas courts in-
volving title to mineral and oil rights
in a quarter-section of land in East-
land county, Texas. A petition
for review was filed by the Asso-
ciated Oil Company.

Fourth and Broadway

It is Free
At your store this week

This 10-Day Tube of Pepsodent.
Present the coupon to any dealer
named below.

Make this delightful test. Watch
the quick effects—see the change
in a week. Then you will realize
what this new way means to you
and yours.

Each use of Pepsodent multiplies the salivary
flow. That is Nature's great tooth-
protecting agent. It multiplies the starch diges-
tants in the saliva. That is there to digest
starch deposits which may otherwise form
acids.

It multiplies the alkalinity of the saliva.
That is Nature's neutralizer for the acids
which cause decay.

Five important effects come from every
application. And modern authorities deem
all of them essential.

Not for women only

The most conspicuous effect is glistening
teeth. Countless women employ it largely
on that account. Few things add so much
to beauty.

But men also want white teeth. Men who
smoke find that teeth discolor quickly, due
to stains in the film.

Pepsodent means more than this, however.
It means cleaner, safer teeth. Children need
it even more than others. Their teeth are
daily attacked, and very few escape. Den-
tists advise that Pepsodent be used every
day from the time the first tooth appears.

To all it means a new conception of clean,
well-protected teeth.

Present the coupon for a 10-Day Tube. Note
how clean the teeth feel after using. Mark
the absence of the viscous film. See how
teeth whiten as the film-coats disappear.
Watch the other good effects.

This test will prove a delightful revelation.
To you and yours it may bring life-long ben-
efit. Every day you wait may mean new
damage. Cut out the coupon now. Present
it this week at your store.

A Surprise Tonight

If you will try this way to prettier teeth

This test will surprise and delight you. The
results are so quick, so pleasing, so conspi-
cuous.

Millions have already made it. The glis-
tening teeth seen everywhere now show some
benefits it brings.

Go get this test tube from your dealer.
Use it and watch the effects. It will open up
to you and yours a new era in teeth cleaning.

Why prettier teeth?
This method brings whiter, prettier teeth
because it fights the film. Your teeth are
now covered with a viscous coat. Feel it
with your tongue. It clings to teeth, enters
crevices and stays.

Old brushing methods do not remove it
all. Enough remains to make the teeth both
dingy and unsafe.

That is why teeth look cloudy. The film-
coats absorb stains. Film also causes most
tooth troubles. And, under old methods, all
these troubles have been constantly increas-
ing.

How film ruins teeth
Film dims the teeth's luster. It also forms
the basis of tartar. It holds food substance
which ferments and forms acid. It holds the
acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with
tartar, are the chief cause of pyorrhea. Many
other serious troubles, local and internal, are
now traced to them.

Countless people find that teeth brushed
daily still discolor and decay. The main rea-
son lies in that film.

Now we daily fight it
Dental science, after long research, has
found ways to fight that film. Able authori-
ties have proved their efficiency. Now lead-
ing dentists everywhere advise their daily
use.

These methods are combined in a modern
dentifrice called Pepsodent. Millions now
employ it, largely by dental advice. The
use is fast spreading the world over among
those who know.

That is the tooth paste we ask you to try.
Watch its effects on the film. See how your
teeth improve. Then let your own good
sense decide between old methods and the
new.

Three other essentials
Modern science also requires three other
effects from a tooth paste. The old methods
did not bring them. Pepsodent brings them
all.

Present the coupon for a 10-Day Tube. Note
how clean the teeth feel after using. Mark
the absence of the viscous film. See how
teeth whiten as the film-coats disappear.
Watch the other good effects.

This test will prove a delightful revelation.
To you and yours it may bring life-long ben-
efit. Every day you wait may mean new
damage. Cut out the coupon now. Present
it this week at your store.

Present this coupon, with your name and address filled
in, to any store named. It is good for a 10-Day Tube of
Pepsodent.

Your Name: _____
Address: _____
Out-of-town residents should mail this coupon to The
Pepsodent Company, 1104 So. Wabash Avenue, Chicago,
and the tube will be sent by mail.
Only one tube to a family.

DEMAND PANAMA ACTION.

Republic Notified by Hughes That Disputed
Land Belongs to Costa Rica.

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 2.—Unless Panama acts voluntarily within a
reasonable time the United States will take measures to compel her to
transfer jurisdiction of the disputed Coto territory to Costa Rica, Secre-
tary of State Hughes says in a recent note to the Panama government. The text
of the document was made public today at the State Department.

"This government believes it
would be inadmissible to interpret
its obligations to Panama as em-
bracing an obligation to support any
claims for adjustment of the Coto
territory which might be advanced by
Panama, no matter what the opinion of this
government might be as to the validity
or justice of these claims," the note
says.

COSTA RICAN LAND.
The Panamanians claim that its title
to the disputed territory had been
challenged since colonial times, the
note holding it in no way entitling
Panama to demand the occupation
of the territory which is not part of
the republic of Panama and is con-
clusively adjudged to belong to Costa
Rica.

"That territory which was ad-
judged to be a portion of the terri-
tory of the republic of Costa Rica,"
the note declares, "in accordance
with a boundary line which the re-
public of Panama has formally de-
clared clear and indisputable, re-
mains, in the opinion of the
American government, the property
of Costa Rica."

DEMAND IS MADE.
After stating that the American
government demands Panama take
steps to turn over the territory to
Costa Rica, the note says, unless
such steps are taken within a re-
asonable time, the United States
will "take the necessary action in
the manner which may be requisite
in order that it may assure itself
of the exercise of jurisdiction in
appropriately transferred, and that
the boundary line on the Pacific
side, as defined by the United States
and on the Atlantic side, as de-

termined by the award by the
Chief Justice of the United States,
is physically laid down in the terri-
tory provided in Articles II and VII
of the Porras Treaty."

The note, which is in reply to one
from Panama dated March 18, re-
states the American position in de-
tail, referring to the statement of
Panama that its people are unani-
mous in their expressions against
recognition of the White award.
The note says that the American gov-
ernment "has learned of these ex-
pressions with deep regret," but ex-
pressed confidence that the people of
Panama will recognize the obliga-
tion of their government to comply
with the terms of the solemn agree-
ments into which it has entered.

The United States, it adds, cannot
consider the suggestion made by
Panama that a plebiscite be held as
a means of reaching a final settle-
ment, because of the obligation of
Panama under the Porras-Anderson
treaty to "consider the award as a
perfect and compulsory treaty be-
tween Panama and Costa Rica."

CLAIM OF PANAMA.
The note asserts that there ap-
pears to be no foundation for the
claim that Panama "is entitled to
retain territory on the Pacific side
which confessedly does not belong to
Panama because the government of
Panama is not satisfied with the
award of the chief justice of the
United States as to the Coto terri-
tory on the Atlantic side."

The Chief Justice "did not ex-
ceed his powers in fixing this
boundary, the note says.

JAP JINGOISTS FROTH.

See Nothing But Danger for the Orient in
Wood's Visit and Mission.

(BY CABLE-EXCLUSIVE DISPATCH.)
TOKYO, May 2.—Maj.-Gen. Wood's visit to Japan was scorching noticed
by the Japanese press, but the Jingoists seized the opportunity to utter
new diatribes against the United States. Prof. Ninichiro Matsumaki of
the Imperial University and Japan's foremost authority on international
law, in an interview published in the Yomio, asserted that Gen. Wood's
opinion has been formed in advance and that his coming was the strongest
argument for the American military tendency.

"We hold that Gen. Wood's selec-
tion to his present post was ac-
counted for by a motive the realization
of which would be detrimental to
Japan and the rest of the Orient."
"Thus, not content with the pos-
session of Guam, Hawaii and the
Philippines America has annexed
Russian territory," he said. "What
do American activities in Siberia be-
fore and after the war mean if they
have no ambition to grab an Asiatic
section of Russian territory? Ameri-
cans are blinded by an insatiable
thirst for others' territory."

Asserting that America is wedded
to the doctrine that might makes
right, he said:
"I am one of those who believe
that Japan should arm to the limit
of its capacity. President Harding
declared his opposition to limited
armament so his attitude must be
followed by the United States."
The newspaper Koki warns the
Philippines not to be optimistic re-
garding independence, but other
leading journals so far have made
no comment.

Dr. Shige Suchiro, a professor at
the Imperial University and an
authority on foreign politics, takes
direct issue with Matsumaki, saying
that Japan must avoid war as de-
fect would be certain. "If Japan
wishes to dominate the Pacific it
must first get the Philippines," he
said. "The probable result of such
an attempt would be the isolation
in which Japan would be placed by
the superior navy of the enemy."

Whooping Cough.
This is a very dangerous disease,
particularly to children under 5
years of age, but when no paregoric,
codine or other opiate is given, is
easily cured by giving Chamberlain's
Cough Remedy. Most people be-
lieve that it must run its course, not
knowing that the time is very much
shortened, and that there is little
danger from the disease when this
remedy is given. It has been used
in many epidemics of whooping
cough, with pronounced success. It
is safe and pleasant to take.—Ad-
vertisement.

Savings

After & Co. is such an instrument, and in the service—service to Borrowers, to Banks, to investors, large and small.

We mention today two issues of Good Bonds which this House has put its own money and investigation. These Good Bonds are engaged in selling to Banks, to Banks, to investors, large and small:

I. San Joaquin Light and Power Company Refunding Mortgage 7% Gold Bonds, due 1951, at 97½, to yield 7.20%.

On each of these issues of Good Bonds we have a Circular which gives the Facts—what you study and compare them, will give you a safe place to invest your savings so that they will work for you while working for others.

Safety—Certainty—Satisfaction—Seven per cent. Ask for the Circular.

White Naptha for Black

As early as 1823, in the village of Mosdok in the Caucasus, an oil refinery was erected with a capacity of forty "buckets" of crude petroleum yielding sixteen buckets of "White Naptha".

Science, human ingenuity, and the necessity of the world for fuel and power, have caused great progress in the refining of petroleum and it is a far cry from this early attempt to the modern refinery covering acres of ground, constructed of steel, brick and concrete, with its tank farms, batteries of stills, and pumping stations.

We recommend the 1st Mortgage Sinking Fund 10-Year bonds of NEW ENGLAND OIL REFINING COMPANY. The Company's refinery at Fall River has a capacity of 6,000,000 Bbls. of oil per year.

When Stocks Tumble—Bonds Make Friends

The other day the Pennsylvania Railroad started the financial world by reducing its stock dividend from six to four per cent. But Pennsylvania bonds go right on paying their regular, fixed, unescapable rates of interest.

Every device and safeguard known to economics and law is thrown around first mortgage bonds to make them secure—both principal and interest.

The expert bond men of our organization will be glad to talk bonds with you. Denominations: \$100, \$500, \$1000.

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)
NEW YORK CITY, May 7.—The stock market today recorded almost the largest operations of the year, although some week-end developments did not promote bullish enthusiasm. Total, 1,145,000 shares.

Another deficit in actual clearing-house reserves was held the reason for the renewal of call loans at 7 per cent and the firmness of all other quotations, including commercial paper.

General advices from railroad centers disclosed another decrease of tonnage at western transportation centers.

Such irregularity as was manifested by the stock market centered mainly in oils. The Mexican group was again depressed during the forenoon on rumors that some of those properties were playing out, but recoiled later, to the dismay of the shorts.

STEEL, EQUIPMENTS, COPPERS AND MOTOR SPECIALTIES, together with shipbuilding, comprised the stronger issues. The shipping, especially American International and Mercantile Marine, preferred, sped forward in the final hour. Net gains ranged from one to nearly five points, rails participating only slightly.

The brief respite granted Germany had no adverse effect on international remittances. The British rate established a new high quotation for almost a year, although easing later and most other European exchanges were higher. French and Belgian rates again sold at equal levels. Dealings in bonds were more expansive and mainly higher, except among rails, in which changes were irregularly downward.

French municipals were strongest of the foreign issues. Total sales, par value, \$13,450,000.

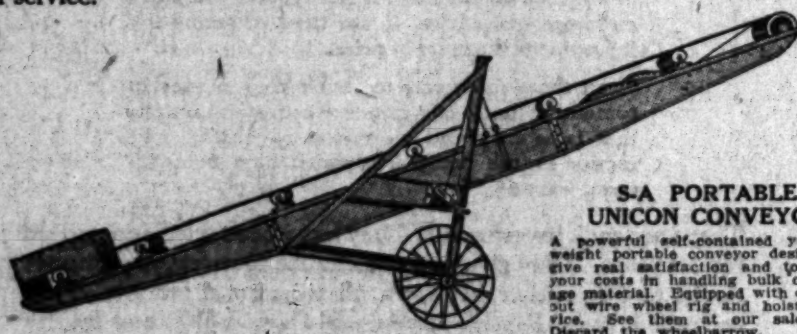

STOCK QUOTATIONS IN NEW YORK CITY.

(Furnished by Jones & Byrne, Members New York and Boston Stock Exchanges, 600 South Street, New York, May 7.—Following are the closing prices, bid and ask, and low and high quotations today.)

S-A SERVICE

S-A service covers a wide field. It means efficient and modern labor-saving devices for handling any product. It means the furnishing of complete equipments for handling heavy materials in cement plants, gravel plants, smelters, refineries, and in the manufacturing plants. It means the furnishing of emergency equipments for contractors who may want a bucket elevator or conveyor for handling material on some special job. It means furnishing the shaft, pulley, sprocket or gear for repairs or breakdowns. It means the designing and manufacturing of special devices to suit peculiar conditions. It means that our entire engineering and manufacturing facilities are at your service.

S-A PORTABLE UNICON CONVEYOR

A powerful self-contained light weight portable conveyor designed to give real satisfaction and to reduce your costs in handling bulk or package materials. It is equipped with or without wire wheel rig and hoisting device. It is built at our salesrooms. Observe the wheelbarrow.

When you need BELT CONVEYORS, BUCKET ELEVATORS, SCREENS, TRANSMISSION MACHINERY Take Advantage of Our Large Stocks and Manufacturing Facilities.

JONES' WONDER OINTMENT

This Ointment is prepared from an old recipe and is a standard remedy for itching, swelling, and pain. It is sold in all drug stores.

FRENCH WORK ON HELICOPTER.

New Type of Airplane Rises Straight Up.

Invented by Argentinian Now Perfecting Idea.

Believe It Can Be Launched from Warships.

PARIS, April 14.—The French aviation world, governmental and private, is deeply absorbed at the present time in the rapid development of the recently invented helicopter, the airplane which is designed to rise straight up from the ground.

The French government, after a careful investigation, has commissioned an expert, has officially accepted the machine and has set aside a substantial sum of money for the immediate improvement of the invention.

The Marquis R. Patenaud, a French aviator, is credited with the invention of the helicopter. He has been working on it for several years and has been successful in making it rise straight up from the ground.

Experimental work now is going on near Paris at an army aviation field, through which the government hopes to perfect the new machine. As yet the helicopter is in the same stage of development as the first flying machines constructed by the Wright brothers.

SURE OF SUCCESS. At the Aero Club of France, where the helicopter is the chief topic of conversation, experts predict that within two years the new airplane will be a practical reality.

Considerable surprise was expressed by these same experts that the helicopter, which is a machine of such simple construction, should be able to rise straight up from the ground.

The helicopter, described simply as a machine constructed of a series of horizontal planes revolving in opposite directions, is mounted on a machine, a base similar to that of a low flying airplane.

On this built two series of horizontal planes, each series composed of ten planes. The usual airplane motor starts the planes and the effect is to make the machine rise straight up from the ground.

In the experimental work, a small gas bag has been used for safety purposes, but it is so far along that these bags are being abandoned.

WILL RISE FROM SHIP. It is hoped that the perfected machine will be able to rise from the deck of a battleship in midocean.

France is conducting experiments at Barcelona, Spain, where the French army commission has spent several weeks in observation. The experiments have been successful.

Several experiments have been conducted at the French Ministry of War. The machine has been able to rise straight up from the ground.

FOREIGN BRIEFS. (BY CABLE AND ASSOCIATED PRESS.) PARIS, May 2.—The reparations commission yesterday made public its report on the German reparations.

LONDON, May 2.—A decree has been issued by the British government regarding the reparations commission.

LONDON, May 2.—More than 300 employees of the Northcliffe press have been ordered to return to work.

PARIS, May 2.—The government has announced that it will accept the reparations commission's report.

DUBLIN, May 2.—The Labor party issued a manifesto yesterday declaring against any party participation in the elections to the Irish parliament.

RIGA, May 2.—A Moscow wireless dispatch announces withdrawal of the British from Persia.

TRAIN IS RAILED; PORTER ARRESTED. (BY A. P. MIGHT WIRE.) MINNEAPOLIS, May 2.—Federal prohibition agents today raided the Minneapolis, St. Paul and South St. Louis train No. 7 (Soo line), at its arrival from Winnipeg.

ORANGE SHIPMENT. LINDSAY, May 2.—Two hundred and fifty cartons of Valencia oranges have been shipped out of Lindsay to date. The crop, which is said to be the largest ever produced in the state, is entirely unharmed by the frost, and the recent damage to green fruit has had a tendency to boost up prices.

HOUSE CONSIDERS PACKER CONTROL. (EXCLUSIVE DISPATCH.) WASHINGTON, May 2.—Hearings on the meat packer control bill were begun today by the House Committee on Agriculture.

PLAN TO REPORT OUT BILL IN NEAR FUTURE—OPPOSITION TO BE HEARD. (EXCLUSIVE DISPATCH.) WASHINGTON, May 2.—Hearings on the meat packer control bill were begun today by the House Committee on Agriculture.

BE SUSPICIOUS OF TENDER GUMS. Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

GRADUALLY THE GUMS BECOME SPONGY. They inflame, then shrink, thus exposing the unopened tooth-base to the ravages of decay. Tiny openings in the gums form gateway for disease germs to enter the system.

MEDICAL SCIENCE HAS TRACED MANY ILLS TO THESE INFECTING GERMS IN THE GUMS WEAKENED BY PYORRHEA. They are now known to be a frequent cause of indigestion, anemia, rheumatism and other serious conditions.

SO WATCH CAREFULLY FOR THAT FIRST TENDERNES OR BLEEDING OF THE GUMS. Try Forhan's immediately. It positively prevents Pyorrhea (Riggs' Disease) if used in time and used consistently.

BORDER ARMY HELD READY FOR TROUBLE

Mob Rule and Disorder at Nogales, Sonora; Infantry Prepared.

(BY A. P. MIGHT WIRE.) NOGALES (Ariz.) May 2.—Following an evening of mob rule and disorder at Nogales, Sonora, opposite the Twenty-fifth Infantry, Col. Earl Cavanaugh commanding, was held in readiness for immediate action in the event of firing across the line.

HOUSE CONSIDERS PACKER CONTROL. (EXCLUSIVE DISPATCH.) WASHINGTON, May 2.—Hearings on the meat packer control bill were begun today by the House Committee on Agriculture.

PLAN TO REPORT OUT BILL IN NEAR FUTURE—OPPOSITION TO BE HEARD. (EXCLUSIVE DISPATCH.) WASHINGTON, May 2.—Hearings on the meat packer control bill were begun today by the House Committee on Agriculture.

SO WATCH CAREFULLY FOR THAT FIRST TENDERNES OR BLEEDING OF THE GUMS. Try Forhan's immediately. It positively prevents Pyorrhea (Riggs' Disease) if used in time and used consistently.

AND IN PREVENTING PYORRHEA—IT GUARDS AGAINST OTHER ILLS. Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.

IF GUM SHRINKAGE HAS ALREADY SET IN, START USING FORHAN'S AND consult a dentist immediately for special treatment. 35c and 60c tubes. All druggists.

AMERICAN PROTEST NOTE SUPPRESSED. (BY CABLE AND ASSOCIATED PRESS.) THE HAGUE, May 2.—The American government's recent oil note to the Dutch government has not been made public here. The fact that such a note was sent became known only through the receipt of a dispatch from New York by the Amsterdam press.

CRITTERS MISNAMED. Crocodiles, Not Alligators, Eat American Mules in Panama Waters. An expedition from the Everhart Museum in Scranton, Pa., in charge of Dr. R. N. Davis, director of the museum, and including also Dr. J. Sanders, chief of the Bureau of Plant Industry, of the U. S. Department of Agriculture, and Mr. J. J. Pelletier, representing the U. S. Fish and Wildlife Service, has been in the isthmus of Panama collecting specimens of fauna and flora to be placed in the museum. All of the specimens are crocodiles encountered on the isthmus have been crocodiles and none of them alligators. The local practice is to call them alligators. The primary difference between the crocodile and the alligator is the shape of the snout and lower jaw, those of the crocodile being long and thin, narrowing at the outer end, while the alligator has them relatively short and blunt.

DEFENDS CITY. Mayor Says Charges of Vice are Unwarranted. TULARE, May 2.—Following a statement made in court here this week to the effect that Tulare officials were lax in their enforcement of the liquor ordinance, which was made by Dist. Atty. Fred C. Scott of Visalia, Mayor William H. Jones appeared before the executive committee of the Tulare Board of Trade and stated that the City Trustees are planning to clean up vice in Tulare, and asked that organization for its support and approval. Members of the executive committee are said to have expressed themselves as resenting Scott's aspersions, and to have also expressed the belief that the charges are unwarranted.

FORTUNE IN DRUGS TAKEN OFF STEAMER. (BY A. P. MIGHT WIRE.) SEATTLE, May 2.—Narcotics valued at \$130,000 were seized today on the steamer "Albatross," which was bound for Yokohama. It was said by customs officials to be the largest seizure of the kind ever made in this port.

Myer Siegel & Co.

TRIPLE PAGEANT PLAN LAUNCHED

Army, Churches, Industries Will Co-operate.

Agricultural, Religious and Commercial Displays.

Receipts to Build Armories for Patriotic Orders.

First steps in a project to stage a mammoth industrial, religious and military festival and tournament in San Fernando Valley on May 5 and 6 were taken yesterday by a representative group of citizens of Los Angeles, Burbank and Glendale and Army officials, meeting at the Clark.

Though no definite action was taken by the organizers, the scene at the meeting was one of enthusiastic support for the project. Further details of the project will be discussed at a meeting to be held at White's Inn, Glendale.

As announced yesterday, it is the plan of a group of patriotic citizens of Glendale and Burbank to stage a significant tournament, to extend over three days during the Fourth of July holidays, in the foothill region adjacent to the two cities. The first day will be devoted to agriculture and industry, including a country fair on a large scale. The second day will be given over to a huge religious festival, including a massed choir of many thousands of voices and including, at night, a pageant depicting the crucifixion of Christ. On the third day the military tournament will be held with all the troops of Southern California participating.

Though the proceeds from the events will be used in erecting armories to house the G.A.R., American Legion, Spanish War Veterans, Red Cross and Boy Scout units of the two cities, it is the plan to provide them on such a large and appealing scale that the festival-tournament will be of equal interest to Los Angeles and all Southern California.

Capt. Raymond Wall, who produced the spectacular Julius Caesar pageant in 1916, is the organizer of the tournament project.

GRANT SISTER OF Mrs. Bixby Decree in Divorce Case.

Mrs. Charlotte B. Satterlee of Long Beach, sister of Mrs. Jotham Bixby, was yesterday granted a decree of divorce from John F. Satterlee, well-known electrical engineer. Mr. and Mrs. Satterlee were married in 1914 and separated in 1919. Mrs. Satterlee was formerly Mrs. Kingore. Progress of the divorce case, which was filed in January of last year, has been attended by great secrecy by both sides. Mrs. Satterlee's attorney resides at Long Beach.

STREET PAVING WAR IS OPENED.

Mayor Still Bitter Against Patented Materials.

New Specifications Arouse a Storm of Protest.

Heavy Cost to Taxpayers in Repairs Forecast.

On the eve of the primary election, there was begun yesterday in the City Council what promises to be one of the bitterest contests the present administration has yet experienced, the matter at issue being proposed revision of the specifications for city paving.

While Mayor Snyder has long urged and is now pressing as favoring new specifications, the ones presented yesterday by City Engineer Griffin contain the proposed requirements under which William A. Patented Paving, may be laid for city streets. The present specifications do not, it is said, recognize this form of patented pavement. Mayor Snyder, who has on many occasions stated to the Council and in public addresses his opposition to Warrents and all other forms of patented paving for city streets, said yesterday afternoon that he was not familiar with the details of the new requirements, and said that he was not responsible for Warrents in the new specifications.

"When the new specifications come before me," said the Mayor, "I shall study them closely. I have not changed my position in opposition to patented paving, for I believe that the royalties paid for patented pavement adds unnecessarily to the cost of new streets, which the taxpayers must pay. My sole object in asking for new specifications was to secure open competition for paving, particularly as to rock used in the pavement."

Councilman Wheeler at yesterday's session of the Council opposed the new specifications, declaring that under them the way will be opened for the use of inferior rock and other materials which will tremendously increase the maintenance cost of streets under the revised requirements, because of the large amount of repair work that will be necessary. Councilman Mallard declared that the new specifications will throw open paving contracts to competition especially as concerns the rock for the base of the pavement. Mr. Mallard said that the "Rock Trust" is opposing the new specifications, which was denied by Councilman Wheeler. The specifications for the new paving materials will be considered tomorrow.

(Continued on Eleventh Page.)

INVESTIGATE VANCE GIRL CASE HERE.

State Medical Examiners Start Inquiry into Death of Chicago Young Woman.

The first action of the Los Angeles authorities since the request by Coroner Hoffman of Chicago for an investigation into the death of Miss Marie Vance, Chicago girl, who died at 825 West Fifty-ninth street, here, April 5, last, was taken yesterday by Agent O'Connell, in charge of the southern district for the State Board of Medical Examiners.

While the full details of his activity during the day were not given out by Mr. O'Connell, it was admitted by him and L. A. Sturgeon, his assistant, that their work yesterday was preparatory to an investigation to be conducted by the District Attorney's office, the police and the medical board men. Mr. O'Connell now has in his possession a drug found at the Fifty-ninth street house. A chemical analysis has been ordered. It was learned yesterday, and a copy of the report made out by Detective Higgins and Mack of the University Station, shortly after the Vance girl's death, is now in the hands of Mr. O'Connell.

Complete data furnished Coroner Hoffman by his experts in Chicago, and all the information given the Chicago authorities by Dr. W. W. Vance, the girl's father, are now on the way here, for the use of the Los Angeles authorities. It was said at the District Attorney's office yesterday.

CONSPIRACY CASE ENDS.

Standard Oil Company Employees Discharged; Bail Exonerated.

Charges of conspiracy against five former employees of the Standard Oil Company to steal \$1990 from the company, through sales of gasoline at certain local oil-filling stations, were dismissed yesterday by Judge Pollette.

The case of the five, L. P. Fletcher, R. R. Hanson, J. P. Croager, H. H. Steinkamp and C. R. Fisher, was set for final hearing yesterday, but Dep. Dist. Atty. Hill stated to the court that he was in doubt as to the sufficiency of the evidence and statements were made regarding the innocence of the defendants. The court then discharged the five men and exonerated bail.

IS INSURANCE CHIEF.

A. O. Birch Made New President of Greater Republic Life.

With the retirement of E. C. Cooper yesterday from the presidency of the Greater Republic Life Insurance Company of this city, A. O. Birch, who has been vice-president of the concern, was made president.

Mr. Cooper announced that he expects to resume the practice of law, specializing in insurance in the city. Mr. Birch is president of the Birch Oil Company and of the Birch-Smith Furniture Company of this city.

NOTED IOWAN'S WIFE IS DANGEROUSLY ILL.

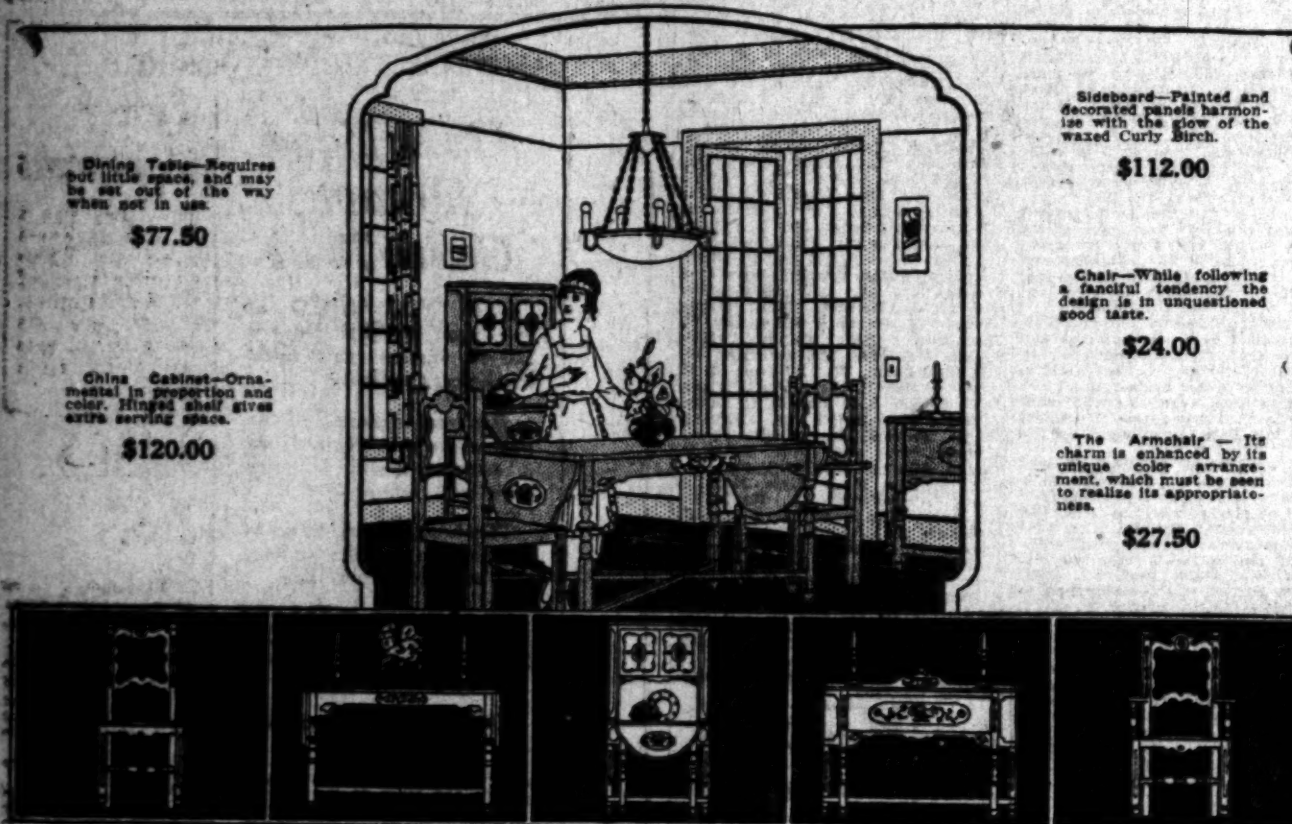

Mrs. S. H. M. Byers, wife of Maj. Byers, the Iowan who served his country as a diplomat in Europe twenty years, is critically ill at the family home, 2444 West Seventh street. Maj. and Mrs. Byers lived in Des Moines before coming here four years ago. Mrs. Byers' recovery is considered unlikely.

Engineers Will be Asked to Hold Convention Here.

Carrying an invitation for the American Association of Engineers to hold its 1922 meeting in Los Angeles, Frank H. Joiner, representing the local chapter, will leave tomorrow for Buffalo to attend the national convention of the organization on the 9th and 10th insts.

Mr. Joiner will be met in the East by Dr. Frederick H. Newell, dean of the school of engineering of the University of Illinois, who also is a delegate from the Los Angeles chapter.

Baby Week

Every day of her babyhood is precious to Baby's mother—something to be enjoyed to the utmost—for so quickly does Tiny One attain to Little Girl's more independent ways!

Baby Week at Robinson's is to celebrate this period of Baby's getting acquainted with her mother and the world in general.

The Layette Room on the Fourth Floor at Robinson's is aglow with beautiful things for Baby's happiness. In this spacious, attractive room are the myriad needs of wee boys and girls thoughtfully supplied.

Hand-Made Apparel

Exquisite hand-work gives distinction to the dainty garments for babies as nothing else can.

Slips have bits of embroidery or feather stitching. In infants and 6-months and 1-year sizes.

Dresses are of French batiste with finely wrought flowers and conventional patterns in yokes and in some models around the lower edge.

Flannel Skirts of Storknest flannel and of silk-and-wool flannel.

Petticoats in soft-finished nainsook.

Sacques and Kimonos have loveliness sewn in with every stitch! Of cashmere, crepe and crepe de chine, some silk-lined.

Lingerie Baby Bonnets in models as dainty as the adorable dresses with which they are worn. Silk linings in white, blue or pink may be bought separately if these are desired.

Bibs in the lovely patterns made abroad and in our own country—with the embroidered band under the arms, and in one piece with the bib.

Coats are of crepe, Bedford cord, faille silk and crepe de chine. Several imported models are trimmed with smocking.

All these hand-made garments are in a wide assortment of sizes, moderately priced. A shopping tour confined to the Layette Room alone would assure one of a delightful and profitable morning.

JACOBY'S

MISS SARATOGA HELPS CELEBRATE OUR BIRTHDAY

100 of these clever Mid are priced fully a half less at 98c

So good looking, so comfortable, so easily laundered, it's no wonder that the popular "Miss Saratoga" is constantly being shown its attention.

Star manufacturer co-operated in Anniversary plans that's how we have these 100 blouses of good material to sell so low.

They have deep sailor collar, seven, snug cuffs and a smart "Miss Saratoga" Middle is white and range from sizes 8 to 14. A group of other middles will go for Wednesday and then 100 of red or blue and the same to 14.

The Floor o-Youth, The Jacoby's

BIG THIRSTY BATH TOWELS GO ON SALE

But their price—48c—is a much under their worth that they'll very soon be drinking

We urge everyone who is interested in these low priced Turkish towels to come early and take their share of getting as many as they want.

They are of heavy two-ply material and the manufacturer let us have them at a liberal price concession for the Anniversary opportunity!

These towels are of two-ply double cloth and have Jacquard borders in red or blue.

Second Floor, South Building—Jacoby's

BIG TOWEL MILL CO-OPERATES VERY ENTHUSIASTICALLY

and so very high grade Hand towels are on sale Wednesday at \$2.86 a dozen

Both Mrs. Los Angeles of 1921 and 1920 have a plentiful appreciation of good towel values, and these are equally interesting to those who are interested in the quality of their towels. They are quick to take advantage of the opportunity!

They are the red bordered type that are equally interesting to those who are interested in the quality of their towels. They are quick to take advantage of the opportunity!

They are the red bordered type that are equally interesting to those who are interested in the quality of their towels. They are quick to take advantage of the opportunity!

PEAKING OF ELECTIONS—THEY HAD 'EM IN '75 TOO!

Here's a comment we clipped out of the Express of those days!

It is amusing to note that only six or six and a half years ago we were not so much interested in the quality of our towels as we are now. They are quick to take advantage of the opportunity!

It is amusing to note that only six or six and a half years ago we were not so much interested in the quality of our towels as we are now. They are quick to take advantage of the opportunity!

Jacoby's 46th Anniversary Bulletin

TUESDAY MORNING, MAY 3, 1921.

PUBLISHED BY JACOBY BROS., LOS ANGELES.

Jacoby's Was Crowded All Day Monday

MISS SARATOGA HELPS CELEBRATE OUR BIRTHDAY

200 of these clever Middies are priced fully a half less at 98c

—Miss Saratoga, so comfortable and so easily laundered, it's no wonder that the popular "Miss Saratoga" is constantly being showered with attention.

—The manufacturer co-operated with our Anniversary plans that's how we can show the goodness of good middies to sell so low.

—They have deep sailor collar, long sleeves, neat cuffs and a smart waist.

—The Floor o' Youth, The Fourth—Jacoby's

BIG THIRSTY BATH TOWELS GO ON SALE

At their price—46c—is so much under their worth that they'll very soon be drinking

—We hope everyone who is interested in these low white Turkish towels to come early and so to get the best of getting as many as they want.

—They are of heavy two-ply yarn and the manufacturer let us have them at a liberal price concession for the Anniversary.

—The Floor o' Youth, The Fourth—Jacoby's

BIG TOWEL MILL CO-OPERATES VERY ENTHUSIASTICALLY

and to very high grade Huck Towels at \$2.88 a dozen

—Mrs. Mrs. Los Angeles of 1921 and 1922 have a plentiful appropriation of good towel values, and they are quick to take advantage of the Anniversary opportunity.

—These towels are of two-ply double and have Jacquard borders in red and blue.

—The Floor o' Youth, The Fourth—Jacoby's

NEWS FROM ABROAD

Pillow Tops at 49c

—Among the foreign news it is noted that imported Tapestry Pillow tops have reached the Jacoby Store and are to be sold Monday at 49c.

—Those well informed on the subject, vouch for a most pleasing assortment of patterns.

ROGERS & THOMPSON SEND ONE OF THEIR LOOM TRIUMPHS TO THE 46TH ANNIVERSARY

1625 Yards of Satin Sable, the Splendid "Truhu" Dye, Come to Sell at \$2.36

—The rich luster, the pleasing texture and the confidence that the R. & T. "Truhu" stamp gives in the permanence of the colorings, all combine to make this an attraction of first importance!

—The Rogers & Thompson looms are world-famed, and the opportunity to buy their product so much underworth will be eagerly seized.

—Satin Sable is 40 inches wide and comes in flesh, white, gray, sand, brown, navy and black.

—Second Floor, South Building—Jacoby's

29c IS THE PRICE BATHING CAPS ARE MARKED FOR THIS SALE

—Just a reminder, so you'll not forget to see the Bathing Caps that have entered the Anniversary lists at 29c.

—A wonderfully wide assortment of shades and styles at this low price.

—Main Floor, North Building—Jacoby's

VEILS TAKE ON ANNIVERSARY SARY PRICES

One very special lot to be sold at 49c

—Think of buying your new Veil for a very much lowered price, in many instances, considerably less than half the regular marking!

—And think, too, how fine it will be to select this veil from no less than fifty styles and colors that make up the Anniversary assortment.

—Especially fetching are the two-tone veils in navy-and-cherry, navy-and-brown and black or gray with jade, navy-and-Copenhagen and the popular taupe combined with beige.

—They are beautiful French chenille dotted veils and there'll be 1134 yards when the sale starts.

—Main Floor, South Building—Jacoby's

MEN—THIS SALE FOR YOU—UNION SUITS 79c

—Athletic Union Suits of striped madras, crepe and heavy nainsook will mean smiles of coolness and comfort for the wearers of them this summer—and when there also comes a recollection of the Anniversary Event which priced them down to 79c, the smile

will be increased by satisfaction over a splendid bargain.

—They may have a bit of a soiled spot, or perhaps a mended place, but that meant that those marking at Anniversary made the sale price just about half.

Mothers Should Buy 19c Sox By the Dozen

And it is quite likely that hundreds of mothers will.

—The artist has sketched some of the Children's Sox that are certain to create a real furore at 19c on Anniversary Monday.

—They are of mercerized lisle, white with roll tops of pink, blue or brown.

—It's a big lot of slightly imperfect pairs and this grade sells for more than double in a regular way. Sizes 6 to 9½.

—Main Floor, North Building—Jacoby's

PEARL BEADS \$1.95

—Pearl Bead Necklaces are just what so many women are wanting today.

—They are becoming to almost every one and look so well with nearly every costume.

—In the Anniversary event there will be Necklaces, 14-in. to 20-in. strands of large, small or medium size beads with solid gold clasps, at the very special price of \$1.95.

—Main Floor, South Building—Jacoby's

Wool Blankets \$9.96

—Wool Blankets—100% all pure virgin wool—in plaid or white—size 62x90 inches, are going to be re-priced for this event at \$9.96 the pair!

—Second Floor, South Building—Jacoby's

WOMEN'S WHITE SHOES FOR A MERE SONG

One Group of White Fabrics Priced for Anniversary at \$3.85—A Second Lot of White Kid and Buck at \$4.85

—Two lots of Women's White Footwear, having values far in advance of their Anniversary Sale prices, have taken the center of interest in the Shoe Department.

—The windows show a typical group of these late arrivals and we are assured that their reception in the department and elsewhere will be remarkably cordial.

—The White Canvas and White Poplin group claims that its special Anniversary price is \$3.85, and, out of deference to the Jacoby Policy of no comparative price quotations, it

The Express of 46 years ago carried this bit of news to "the old timers"

—We regret to say that little Frankie Schumacher, who met with an accident at the school house on Tuesday, is suffering very severely. Frank and other boys were performing some simple gymnastics, when Frank fell on his elbow. We hope he will recover rapidly.

—The writer called Mr. Schumacher on the phone yesterday afternoon and read the foregoing item to him.

—I remember that accident as well as though it was yesterday," said Mr. Schumacher.

—Unpleasant things are remembered a long, long while—that's why we strive so hard to have things just right here at Jacoby's—why we go so far out of our way to please you!

WOMEN'S UNION SUITS AT 79c

A Special Anniversary purchase brought them way underneath.

—News about Women's Knit Underwear is always of interest, and this story will be read very gladly.

—Women's white cotton Union Suits, and exceptionally good ones, too, bear an Anniversary price mark of 79c for Tuesday.

—They are low neck and sleeveless, some with cuff knee and others having wide knee finish with lace or shell stitch. Either band or ribbon run tops. Regular and extra sizes at the one price.

—Main Floor, North Building—Jacoby's

ANNIVERSARY CORSETS THAT ARE REMARKABLE EVEN FOR JACOBY'S

Three Very Exceptional Groups at Surprising Prices

—The corsets of 1921 are far and very far-off kin of the stiffly boned, high-busted corsets that were worn in 1875.

—One change after another has marked the growth of corsetry, until now, this "all important" is built along different lines altogether.

—The modern corset means freedom, comfort, grace and lines of youth and beauty to the well-gowned woman of today.

—The Jacoby Corset Service plans to make a strong impression on the Anniversary and again for Tuesday there are three lots, that are all wonderful.

—To begin with, there are 200 pink coutil corsets to sell at 50c!

—In 1875 one could buy an excellent corset for \$1.00—but in 1921! That's a very different matter!

—This group of 200 have the elastic top and are lightly boned.

MUCH OF TUESDAY'S SUCCESS WILL BE DUE TO BOTANY WORSTED MILLS

They Send Three of Their Highly Desirable Woolens, Priced 'Way Less, at \$1.46

—They are the sort of values that make judges of woolen fabrics open their eyes in genuine astonishment!

—Wool poplins, epingles and the famous Botany serges compose the assortment. They are all 44 inches wide and the list of shades includes navy, black, Copenhagen and taupe.

—Second Floor, South Building—Jacoby's

SOME WALT MASON STUFF THAT'LL MAKE HIM TURN GREEN

—1875 is Past, and we live our days so fast that to keep "tab" on the changes is a job!

—We've swapped lamps for electric juice, and we have no lot of use for the fellow who's inclined to wail and sob.

—For the times of "his" we're too glad to be alive; we boost these modern days with all our might.

—We like things that whiz and hum; we just grab them as they come; we are "tan" for 1921, all right!

CORSETS AT \$3.98

—The stout woman will want one as snugly as she tries it on.

—Slender and medium figures will choose Walcott boned corsets of pink broche, having low bust and long or medium hip and elastic side gore.

—There are 150 corsets in the lot at \$3.98, and they are simply wonders.

—Second Floor, North Building—Jacoby's

HOUSE FROCKS—A SALE FOR ANNIVERSARY, \$1.98

My, but Wouldn't the Women of 1875 Have Been Glad to Have Bought Such Pretty, Well-Made Gingham House Frocks for So Little!

—A big maker of clever house frocks has caught the enthusiasm of the head of this department and has sent a "delegation" of seven fetching styles to take part in the Opening of the Anniversary event.

—These are 246 pretty Gingham frocks in this detachment and they are all the way from the slim sizes to 44.

—There are plaids, stripes and solid colors and the maker proves the force of his interest by selling them to us so far under the real worth that we've marked them \$1.98.

—Second Floor, North Building—Jacoby's

—A famous old linen house of New York has sent us for our Anniversary Sale—500 yards of 36-inch Pure Irish Linen—bleached, soft finish—all pure linen, at a price that surely must be less than half—46c yard!

—Can't you at once think of at least a dozen uses for it?

—And be sure to get here early—there is a lot of it but there are also a lot of women who have been waiting quite a while for just such an opportunity!

—Second Floor—South Building—Jacoby's

LOS ANGELES HAS SELDOM SEEN SUCH CROWDS—AND JACOBY'S HAD BY FAR THE BIGGEST DAY IN 46 YEARS.

—We expected the 46th Anniversary Sale to open with brilliancy, enthusiasm and everything that goes to make success!

—We laid our plans carefully and our widespread announcements were "backed" by merchandise that's sure to set the 1921 Los Angeles agog.

—And the reality has exceeded our widest expectations!

—From the first instant when the doors opened, and throughout the day, Jacoby's friends and patrons, and new acquaintances who heard the news, have been simply pouring into the aisles—buying, admiring, congratulating and in various ways taking full advantage of the opportunities.

—The 46th Anniversary is just started. It will run throughout the month of May, with no "let-up" in the force and number of the Anniversary attractions!

—Jacoby's has been closely identified with the history of Los Angeles for the past 46 years, and its most prized asset is the friendliness and good will that have been won in the upbuilding of the Jacoby business since 1875.

—The Jacoby Bulletin will appear every day during the Anniversary Sale. Watch for it. You'll find much that will be intensely interesting.

THAT VERY CHARMING LITTLE "LASSIE" BLOUSE HAS JUST ARRIVED FOR ANNIVERSARY

She will be much in demand for Girls and Small Women at—\$1.98

—They are yarn blouses, knitted in the pretty sweater stitches, short sleeved, and extend just a little way below the waistline.

—A distinguishing "Lassie" feature is the smart little vestee with collar to match of lace trimmed net. A narrow ribbon or a knitted cord is used as a waist fastening.

—Colors are tomato, buff, honeydew, heliotrope, zinc, navy and gray.

—The Floor o' Youth—the Fourth—Jacoby's

It Was Wonderfully Good to See the Crowds, But Better Still to See Old Friends

Forty-six Years! It's a long, long time—and yet a great many men and women who traded with Jacoby's when it was first opened came to the store this morning to offer congratulations and to express their appreciation of the service this store has rendered them and their families.

And to show our appreciation of the patronage this store has received the past 46 years, we've planned this selling event, the items of which are merely hinted at in this advertisement. Watch our windows!

BLOUSES \$2.98

—Waists to turn all the other items green with envy! Of Crepe de Chine, of Georgette, of Mignonne—and in every thinkable color!

—Imagine a waist of Georgette trimmed with silk braid that is laid in a fascinating design of scrolls and whorls to form an overblouse effect at the waist, and is worn again at the neck and on the elbow sleeves!

—And others that we can't begin to describe.

—We never could have got them to sell at such a price if it were not for some tiny, mostly hardly noticeable imperfections—the amazing price tags read—\$2.98!

—Jacoby's Underprice Basement.

—They are so well tailored, with their mannish hip and side pockets, their trim fitting lines and their 11-eyelike knee lacings, that you'd guess them to be ever so much more.

—The material is of extra quality and every detail of cut and finish is pleasing.

—Jacoby's Underprice Basement.

IN THE BASEMENT A Sale of Dresses \$14.98

—Even in the carefree pre-war days, values like these were rarely offered. We can just hear you exclaiming over them now!

—There is a beautiful quality of Crepe de Chine, finely pleated from hip to hem, and a deep circular bertha, also finely pleated, falls gracefully from the round neck.

—Another is of Gray Georgette over a gray silk foundation, with coin spots made of silk cord in Royal Blue, here and there all over it.

—Another is of Crepe de Chine with a wide panel front and back from shoulder to hem, bound to the foundation only by the long string belt.

—And these are only a few of them—the best thing would be for you to come with the early shoppers, for many, many women are not going to be content to carry home only one of these dresses!

On Broadway Jacoby Bros. Between 3rd and 4th

—A famous old linen house of New York has sent us for our Anniversary Sale—500 yards of 36-inch Pure Irish Linen—bleached, soft finish—

all pure linen, at a price that surely must be less than half—46c yard!

—Can't you at once think of at least a dozen uses for it?

—And be sure to get here early—there is a lot of it but there are also a lot of women who have been waiting quite a while for just such an opportunity!

LOS ANGELES (Los Ang-hay-lah)

MEMBER OF THE ASSOCIATED PRESS.
The Associated Press is authorized to use the name of the Los Angeles Times in its publications.

THE QUOTE LIFE.

A government mail clerk has traveled over two million miles in the last forty years, but never saw a wreck or missed a train. He ought to hang around one of these one-man cars some afternoon.

PLAIN CITIZENS.

In the new republic of Albania all the men have been sent to the scrap heap. There are no more boys and pashas. The highest a man can get is to become a "not." That sounds like somebody who has busted the Eighteenth Amendment wide open, but it happens to be Albania for "citizen."

IN THE SWIM.

June 1 is to be observed as learn-to-swim day. There are numbers of people who think they are in the swim who are merely floaters. It would be well if all were able to take advantage of themselves when going beyond their depth. Learn-to-swim day might be played as a double-header.

SEASIDE HINTS.

Rockaway Beach has established the edict that no beach limbs may be exposed on the sands. Bathing suits must even have sleeves of a certain length. A girl may not display her calves, and even a bare ankle is questioned. A Venice maid would have to put on her full winter raincoat in order to qualify for a swim at Rockaway.

RUNNING THE MACHINE.

The Assembly has been very good to the Governor. It allowed him \$3400 for repairs to his car and \$10,000 for so to call his political machine. The \$2400 will buy several spark plugs and the \$10,000 would keep the wheels of the machine running smoothly for some days ahead. "Easy come, easy go," is to be the new motto dictated on the State seal.

KEEPING STARS.

We are advised that over 7000 stars are visible to the naked eye and may be counted on any clear night. We were told the number was greater. We had thought it was in Los Angeles. Out Hollywood way one can pick out five or six hundred new stars almost any afternoon. They are not only visible to the naked eye, but they dazzle it. Even with a low visibility the thing is clogged with stars.

THE SPOONERS.

The Kansas City Park Commissioners expect to convert a small downtown park into a Passion Paradise. They are going to house the girls and take away the police, so that spooning couples may not be unduly embarrassed. The encompassing darkness of Kansas City is a fine thing for the love-making business and it is thought advisable to make it centralized. So far as known this is the first official encouragement given to spooning at the hands of a park commission. Usually efforts have been in the direction of hampering them.

SHINING LIGHTS.

A Harvard professor, who is also a leader in the social life of Boston and a member of one of the foremost families in America, has been arrested for home brewing. He had a nice little still in his cellar by the use of which he was able to develop a pleasant kick in the punch he served at the social gatherings at his home. Now the professor says that everybody is doing it and that all Boston is a study in "still" life. In another city the son of an American Ambassador was arrested for having a flask of whisky in his possession and for holding communication with bootleggers. Enforcing the prohibition amendment furnishes a succession of delightful surprises.

NEW BLOOD.

The French government is disturbed over the census returns. There seems to be a shortage of youngsters and so France now offers a premium or bonus to motherhood. A first payment of 150 francs is made to every mother within thirty days after the birth of a child. The surprising thing is that the marriage certificate is not essential. It doesn't make any difference whether the mother has a wedding ring or not. It is the child that counts. It is unfortunate that any country should be placed in a position to treat the marriage relation so lightly as not to be an essential in the parenthood of its citizens. The recognition of natural children is to be desired, but to pay an official bonus for them is going rather far.

ONE COMMISSION.

The Assembly has appropriated \$15,000 with which to wind up the affairs of the Historical Commission. It will take a year or so to do it, but it is promised that there is one commission which will be dispensed with. Possibly the fact that the members served without pay may have something to do with it. Nevertheless, instead of hitting it in the head with an ax, the Assembly hands the commission \$15,000 and tells it to go off and die by itself—without musing up the place. It would be a dreadful thing if the Historical Commission should take a notion to write the history of Progressive administration in California or to trace some of the millions that have been squandered in the name of popular government. Therefore the Historical Commission will be dispensed with as a politely and completely as possible.

THE NEWBERRY DECISION.

California's Legislature was premature in its memorial to Congress demanding the immediate passage of a Presidential primary act. The Supreme Court of the United States decided in the Newberry case yesterday that Congress does not possess authority under the Constitution to regulate primary elections. Senator Newberry and sixteen of his political supporters were convicted two years ago on a charge of violating the Federal Corrupt Practices Act. It was alleged that Senator Newberry's friends spent, with his knowledge, more than \$10,000 in his Michigan primary campaign. But the Supreme Court has absolved them from all legal blame by declaring that the section of the act which seeks to regulate primaries is unconstitutional. In giving the majority decision Justice McReynolds said:

The Constitution refers to final elections, not to primaries, and we cannot conclude that Congress can regulate primaries.

Since his conviction two years ago Senator Newberry has not occupied his seat in Congress. Michigan Democrats contested his election on the ground that fraud had been practiced and sought to have Henry Ford declared elected instead. But a Senate investigating committee held that the charges of fraudulent election were not well founded. Newberry's name is now cleared of all criminal stains and he will occupy again his seat on the Republican side of the Senate.

Chief interest in the decision, however, centers about the fact that it has given a quietus to the efforts of a group of radicals to secure the enactment of a national direct primary act. The Times has always held that such an act would endanger the free institutions of the United States; for it would have made possible a minority nomination of party candidates. This was the end the radicals sought. A single radical running against three or four conservatives might win a nomination, although he would not be the choice of as many as one-third of those who took part in the election. Under the convention plan a candidate must have a majority to receive the nomination.

Senator Johnson's friends succeeded in getting through the present California Legislature a resolution favoring a Presidential primary act. It would permit the kind of manipulation of elections which is dear to the heart of the State machine. In the matter of reappointment the administration majority at Sacramento was able to nullify for the time the provisions of the California Constitution; but it is not likely that, in the face of the Supreme Court decision, it will get far with its attempt to have Congress write a new section into the Constitution of the United States.

While Senator Newberry is now absolved of all legal guilt, the effect of the charges which he was forced to defend will probably drive him from political life at the end of his present term. A man once convicted, however wrongly, of public opinion has but a very remote prospect of securing a reversal of the verdict. It was never asserted that Senator Newberry himself expended more than \$10,000 to secure his nomination and election. In fact, it was proved that he did not expend one-fourth that sum. But he was held responsible under the Federal Corrupt Practices Act for the expenditure of money by his friends. It was stretching a point to convict Newberry and his associates. The Times always thought.

MELLON ON THE JOB.

Secretary Mellon has emitted a growl at the Ways and Means Committee of the House which gives one the comfortable feeling that the country has secured a genuine watchdog for the treasury. He has notified Chairman Fordney that the nation "must not, shall not and cannot continue to spend money at this shocking rate."

The new Secretary of the Treasury is barking at the right place. Money must be appropriated by Congress before it can be spent by the different Federal departments. Appropriations are made on recommendations of the Ways and Means Committee, and it is to this committee that Secretary Mellon has addressed his remonstrance. The trouble with the hunting dogs of the Wilson administration was that they spent most of their time barking at knotheaded Chairman Fordney. The damage for the present year is already done. Disbursements for the fiscal year ending June 30 will be about \$5,000,000,000. The \$500,000,000 has been well invested, for it represents a reduction in that amount of the national debt; but at least \$1,000,000,000 of the remainder represents absolute and un-defensible waste. There will be a Democratic deficit of about \$115,000,000.

Secretary Mellon believes in a protective tariff. But he is quoted as saying that it would be folly to enact a tariff for the sole purpose of securing national revenue. Such a tariff would encourage national extravagance and would add to the cost of living. He advocates a tariff for the purpose of preventing dumping, one that will equalize the difference in labor costs and permit a maintenance of the present high American standard of living.

Secretary Mellon has already figured out a reduction of \$1,000,000,000 in the expenses of the Federal government for the next fiscal year. While this sum will not be regarded as considerable as it was before the era of wild war expenditures, yet it must be remembered that a thousand economies will be necessary to cut off that amount. It is more than the total cost of the Federal government prior to 1914. It is equal to the annual payment Germany is required to make in the way of indemnities. All things considered, it will be a good beginning in the way of national economies.

Disappointment has been experienced in many quarters over the new policy of the Federal administration. Promoters have grown accustomed to expecting the government to find finance enterprises which are not government concerns. Foreign countries have been looking to our government to tax us for money to loan to other governments. Groups interested in humanitarian legislation have been urging the government to increase the number of "abstinent positions and create new Federal departments. Each of these groups is loud in its professions of economy; but each

A Voting Machine Has Finally Been Perfected!

wants to economize on what some one else wants. "Give us cuts; then lock the vault!" It is an old cry that has issued a thousand times from the lips of extravagance. The first principle of economy is to get along with what you already possess. There must be a spirit of sacrifice and concession on the part of the promoters of public enterprise before we can have the stars economy in national expenditures that is so sorely needed. If the nation goes on at its present wild gait, so clearly characterized by Mellon, it will hit the rocks of financial disaster and distress. Root—pull it—down—cut down—it must be done whether you get yours or not.

The Times hopes sincerely that Secretary Mellon's demand for "substantial cuts in current expenses" will be heeded by the Republican leaders in Congress. They, too, will be besieged by demands for increased expenditures in their home districts. They will be told that to reduce the working staff of the Federal departments will be political suicide. But the Times trusts that they possess sufficient courage and probity to put the good of the whole people before the private advantage of small groups.

Perhaps we may be permitted to hope that the example set by the Harding administration will enable the taxpayers of California to evolve a way in next year's election to set in motion machinery for the actual reduction of the cost of State government. It does not seem possible that the State shall fail to find among all its citizens men who can be trusted to keep their pledged word to the people when elected to office. The present State administration gave the most positive assurance during the last campaign that they would CUT DOWN THE EXPENSES OF THE STATE GOVERNMENT. The Legislature is now adjourning, after increasing the current expenses 50 per cent. Perhaps provisions will find for as a Mellon or a Lovett to serve as Governor. But the trouble is that we of California have permitted our hands to be tied by vicious election laws. Providence itself would have extreme difficulty in electing an honest and courageous man Governor of California under the existing primary laws.

SIR JAMES AND PETER.

"Peter Pan" is the darling of Sir James Barrie's heart. It must be nearly twenty years since Barrie wrote "Peter Pan," that play that has made him a millionaire. He has not grown up, twenty years since he had a blonde sophisticated London audience standing on their feet, frantically waving their handkerchiefs and yelling "we do, we do," signifying that, indeed, they did believe in fairies and thereby saving Tinkerbell's life.

Barrie has written many a whimsical and successful play since then, but Peter is Barrie's favorite son. There never was a play quite like "Peter Pan," which revives and stirs every fascinating memory of childhood and makes us live again those wondrous imaginative years when all things were possible and fairies the real things on earth. The children love it, but it is the grown-ups that worship it and never a head so bold or a face so wrinkled that it will not respond to that masterpiece.

And that is why Barrie has always been so firm on the subject of the film version. He could bear to see other brain children transformed into strange and dubious characters; he could live through a metamorphosis of his delicately sketched "The Admirable Crichton"—but "Peter Pan" must remain "Peter Pan" or escape the films forever.

For years producers have tried to win Barrie over to a screen version of "Peter Pan." Not so very long ago the San Francisco society dame decided she would play it herself and announced the formation of a company for that purpose. But even a young and wealthy society dame could not persuade Barrie to trust his darling to her interpretation. In the stage versions he was drastically excluded—Maudie Adams alone was permitted the privilege in America, and only two successors to the original Nina Boucicault were conceded the honor in England in all that twenty years. Jealousy guarded the play's reputation—no amateurs, no road companies, no colonial

companies were ever permitted to handle it. And wisely he waited until this day when the film industry has advanced so far in art and propriety, is cultivating a conscience, professing lofty principles and showing a proper respect for the works of eminent authors. But, even so, Sir James Barrie is coming to Los Angeles to supervise its production himself, to select every character, watch over every brilliant subtlety and ensure that jocular, wondrous Peter Pan will lose no iota of his charm.

Sir James loves Peter because in that child he has captured the living vital spirit of childhood, the exquisite playfulness and make-believe that every normal child exudes so brief and rapturous a period of life. It lasts such a little while, this exaltation of imaginative childhood; and so few masters have captured it in time! It eludes us so soon! Today it is ours and tomorrow we have suddenly grown up. And somehow we have been growing up earlier and earlier of late and that precious art becomes ever more elusive. But Peter Pan never grows up. He is sorely tempted in the play and has to make some sacrifices of old emotions and a passionate desire to put the children of the world on that wondrous childhood intact—but we are left with a wistful feeling that we, too, would "an' we could."

DISORGANIZED LABOR.

Sound doctrine for the ears of all trades unionists is to be found in the words of Oscar Nelson, vice-president of the Chicago Federation of Labor.

"Propagandists of the soviet," he told the recent meeting of the federation, "have no right to accept any of the benefits which have been won by organized labor."

They are out to destroy the stable economic condition in which men produce and business flourishes.

Talking blind Red mutiny gets nowhere. He who brings together over the table of quiet conference, in a mutually conciliatory temper, those who have a misunderstanding is the real friend of industry, of order, of society.

Organized labor cannot accept the Communist tenet that employers are the natural and inevitable enemies of the employed. It believes that every man has his chance to rise, and it knows that the employee of today becomes the employer of tomorrow.

Organized labor in America and Bolshevism everywhere are destroyers, alike in practice and in theory.

When will Bolshevism see that, as far as American labor is concerned, it's no use trying!—(Philadelphia Ledger.)

WILL SAM PLEASE WRITE!

If Mr. Gompers keeps on discovering that all powers in heaven and earth are trying to discredit and destroy labor unions people will begin to wonder what all this is for. Everybody is so down on them.—(Indianapolis Star.)

BEWILDERED PATRIOT.

(With Apologies to A.D.A.)

BY FREDERICK J. HASKIN.

WASHINGTON (D. C.) Sept. 14.—A Common Dub, such as you or I went to a grocery store to buy a piece of cheese. And when the man behind the counter told him the price he said, Where do I get off? For that is more than I make in a day and more than I used to pay for a whole dinner.

And then a heavy party in a plug hat who was standing hard by spoke to him and said, Do you know you have to pay so much for a piece of cheese? And the Dub said, No, I don't know. He said, It's because of the way the politics of this country are run. If you voters and sterling citizens will only turn the Democratic party out and put the Recreatic party in the price of cheese will topple, and here is the ballot which you should vote.

And the Dub took the ballot and folded it up and put it in his pocket and took his cheese and started for home, but at the door he was stopped by a small, wiry party with long hair and tortoise-rimmed spectacles and a flowing tie, and this party said, I am a Socialist and that guy in the plug hat was giving you a bum steer. The problems which beset our great republic and the causes which boost the price of cheese are not political at all. Our party is just as bad as another. You have got to go deeper. The fundamental cause of the trouble is economic. It is merely necessary for the proletariat to organize and rise up, and shake down Morgan and Rockefeller and the rest of the plutocrats, and place the money and the land and the factories and the railroads in the hands of the people and we will have cheese at the good old price of five cents a pound and anybody will have to work but five hours a day, and the rest of the time we will spend in cultivating our minds and all will be lovely.

May Proved It All.

And the Common Dub said, Where do you get that stuff and how do you prove it? And the small guy in the plug hat said, Here is a book by a guy named Marx, and if you can read it all the way through and are still alive and awake and do not perceive that capitalism is the cause of civilization and that the day of the brotherhood of man is about to dawn, you are a saphend, and there is no hope for you, even in Russia. And the Common Dub thanked him and took the book and put it under his arm and went on his way rejoicing and thinking what a good deal he had learned from the Rockefeller manna and that he was getting a lot of light on the price of cheese.

And as he was going home on the street car he met a friend of his who was a professor in a college and wore a Prince Albert, but never had time to eat. And he told the professor all that he had learned about the price of cheese, and the professor said, You have got it wrong, said. As my eminent colleague, Prof. Irving Fisher of Yale, has indisputably demonstrated, the present high cost of living is traceable to perfectly remediable defects in the monetary system, and currency system. With the dollar having a value expressed in terms of only single commodity, to wit, gold, it is inevitable that the purchasing power of said dollar as measured in all other commodities will vary inversely with the relative abundance of said commodity.

That is why your dollar at present buys but forty-nine cents' worth of 1914 goods. The remedy is simple and obvious. We have merely to abolish the gold standard and establish a dollar which shall be evaluated in the terms of one hundred necessities of life. Then, when once wages and salaries have been adjusted on an equitable basis, they will be adjusted for all time, and the cost of living will never vary.

BRAIN HELP.

And the Dub replied, Although I cannot trail you all the way, you certainly make a noise like a man with an idea and I am much obliged for the information and sorry that I haven't got enough brains to understand it. And the professor said, You are welcome and don't worry about the brains which are a handicap in the struggle for existence, as witness me.

And as the Dub was riding home on the car he met a friend of his who was a friend of his who moved to the country and looked it. Part of his brain had been buried and the rest had evidently furnished grazing for a variety of insects, and he had a hoe and a rake under one arm and a young peach tree wrapped in a gunny sack under the other. And he said, I see, or rather I smell, that you have there a piece of cheese. And the Dub said, Yes, and it set me back what used to be considerable money and still is to me. And his friend said, Why do you stay in the busy marts of trade and wear the skin off your heels walking on sidewalks and pay for your food exorbitant prices which go into the pockets of seventeen middlemen that don't need it? Why do you not come out into the country and raise your own? Do you realize that one acre of ground will support a family of five and that you can now can anything from a radish to a watermelon? The whole problem of the cost of living lies right there, my son. There are no more people in the country now than there were ten years ago, but there are millions of cities and so, of course, there isn't as much to eat. And the Dub said, So I notice. And his friend said, Back to the land is the solution and the only possible solution, and the sooner we do it the better. And the Dub said, Yes, but where do I get the land? And his friend said, I will sell you mine cheap. I like the country fine and I am strong for nature and the Good Brown Bread and all that stuff, but my wife has a passion for the movies and she can't keep a maid and she says we'll move to town together or she

A Few Other Sure Cures.

And these were only some of the people that the Dub talked to. He found also an efficiency expert who proved to him beyond the shadow of a doubt that the high cost of living is due to lost motion, and a man of God who said that the economic problem can be solved by a literal return to the Golden Rule, and a birth-control enthusiast who said the trouble is too many people and that families should be limited by law; and a race-suicide alarmist who said that the high prices are due to the decline of man power and that more kids are the solution. And he saw that all of them were dead right, and he went home mopping his brow, and he said, I don't know, but I will make no difference to me, for I will be all in. And his wife said, You said it.

RIPLING RHYMES.

MY RIGHTS.

I do not like awake 'nights, until the clammy dawn, in terror lest my sacred rights should be infringed upon. My neighbors are a pleasant lot, their conduct always good, and no one's slugged and no one's shot in all our neighborhood. Each one assumes the other gets are fair and decent scots, and so no one his rights laments or for reprisals shouts. Year after year we go our way, and never have a row; and I lend Smith a bale of hay and he lends me his cow. And I could change this atmosphere of peace and its delights, and make discordant things appear, if jealous of my rights. For Johnson's hens at times arrive and strut up all my greens; but better have our concord thrive than raise a crop of greens. And Biddie's dog sits by my gate and bays the moon awhile, but better lie awake till late than miss the Biddie smile. And Hawkins plays an alto horn that jars things in my flat; but he's all right, and I would scorn to punch his head for that. And when I sing "Sweet Bell Mahone," as I am prone to do, no rocks or bricks are thrown, no pipes or pipes are blown through. The others' faults we all forget and talk of "rights" with tact, and no one's ever offered yet to read the riot act against me.

DROLL STORIES.

Marshall Petain's Story.

On one occasion when Marshall Petain (who, by the way, was recently married at the age of 64), was investigating against marriage, he wound up by remarking that a large proportion of married people led a cat-and-dog life.

"Oh, come now," objected his friend, "isn't that rather too sweeping? You know, cats and dogs don't always quarrel. Look at those cats on your hearth. They get on very well together."

"Yes, they do," admitted Petain. "But you see them together and see what happens then."—(Pittsburgh Chronicle-Telegraph.)

Know the Signs.

A teacher in a slum school was calling over the names of his scholars in order to ascertain which of them were likely to leave shortly. "Please, sir," said one urchin, "I think I shall leave soon."

"Why, Tommy?" asked the teacher.

"Well, sir," he said, "I think we're going to leave our 'ouse, 'cause mother's burnt the coal house door and sold the cupboard door, and father's a-chipping down the stairs this morn'ing. We allus leave after we've burnt the stairs."—(London Tit-Bits.)

Losing a Job.

When J. K. Paulding was Secretary of the Navy he wrote to the postmaster of a small village in the South as follows: "Sir: This department wishes to know how far the Tomblague River runs up." The answer came back: "It don't, it runs down." The postmaster-General was informed of the affair and failed to see the humor of it. He wrote a letter to the postmaster that said: "Sir: Your appointment as postmaster is hereby revoked. You will turn over funds, etc., pertaining to your office to your successor." In no wise put out, the postmaster once more took up his pen and the Postmaster-General received this: "The revenue for this office for the quarter ending September 30 has been \$5 cents. Its expenditures same period, for candles and twine, 45 cents. Please instruct my successor to adjust balance."—(Houston Post.)

As They Sometimes Do.

Our fellow townsmen, A. J. Drexel Biddle, was talking about food prices. "Food prices," he said, "keep high. If only the same could be said of food quality!"

"I was travelling to Washington the other day. I lunched in the dining car with I ordered two soft-boiled eggs."

"But the courtly old colored waiter brought me three eggs instead of two," I asked him.

"Why three eggs, uncle? I only ordered two, you know."

"Fas, sah," said the old waiter, smiling, "because you malar ordered two eggs, sah. But Ah bring three 'kase Ah jes' hatch-ally thought one of 'em might fall you."—(Philadelphia Bulletin.)

AN EXPLANATION.

This was the last editorial in this issue. It was set up, and just as the type manipulator solved it, he broke the matrix for a certain letter. It is not easy to specify it, but we may say that it stands between r and t in the alphabet. He found an extra x, however, so he supplied the missing letter by making this ridiculous substitution. It is perhaps fortunate that we have no space to say more.—(Compliments Waterbury Press.)

PEN POINT.

BY THE STAFF.

Congress has passed the resolution. Now let us see what the San Brown bolts.

The local trout stories are on exhibition. They are usual fare run this spring.

The schoolbuses of Pasadena are to form a mutual protection association and hold annual picnics.

England is to be given four likenesses of George Washington. Didn't the original die in 1776?

Wanted—A little harmonium. Also a few dollars to pay for the same. The owner will be glad to be laughed at.

There does not seem to be need for a speed ordinance along the travel along the road maily.

It is now but a short time since the rulings of the high officials prohibition law. One must not another is encouraged.

Germany is so and so on the demands of the Allies. It is said to be everywhere in Berlin—where they are getting ready to the tune of jazz.

It used to be that the man actually believed the notions of mail were made up to the printed schedules on the boxes at the street corners.

Another thing, where do the Greeks get all the mail they are shooting away in the sky and uniforms? The Greek Council please look up.

That great amphitheater at Elgin Park with its 10,000 seats for the international Olympians in 1924. Will we get anything, some, as Potemkin marked to Perimeter.

An airplane has been that it is claimed will make a trip from New York to Los Angeles in less than a week. A Los Angeles man on plane can arrange to spend his time at the Antipodes.

Two million dollars' worth of goods were shipped to this country during the month of March. It was a record for the month who have a few dollars' making after paying the tax.

President Harding has over \$500 to the Salvation Army for the erection of a corps headquarters building in Boston. He can recall when President was not quite sure there was much money in the world.

President Harding is less to get rid of his callers without their feelings. Some of the cleverness of McKinley could afford a caller and request with so much diplomacy the fellow was sorry that he was a favor.

Clara Smith Hamon, the Oklahoma politician, was sojourning in Southern California the other individual, we know, who succeeded in fact that she was baptised on the front pages of the papers.

Foiks who are impatient about something doing right away, take heart. It is patience that considers for the national championship, Casablanca, Lasher. It often happens spend four hours making moves on the chessboard. He frequently decides a game.

It is the effort to clean up all games, a campaign is to be inaugurated the attention of the police games of marbles that are everywhere in defiance of mother not to wear holes in socks or scuff out the shoes.

A SUGGESTION TO TRAGERS.

A party who calls himself "towns Billy" writes to me ever that it is still difficult to get, mustard, mushrooms, etc. (I never get to crime, you votes rebellion against law. He advises Trager to County Jail inhabitants to bread, cereal and soup.)

If you're boarding a "hombes" And they start up a row, it'll be all right.

You should try this new forming the man Who is making the quail.

Don't feed him red pepper and tart.

Dill pickles or mustard meat.

Give him coons and trout and troublesome brute.

Very soon will grow sweet!

If a prisoner goes on the wild And his temper gets wild, There's only one way you can tame him, O my boy.

And cause him to grow mild.

Don't let him with grease on his face.

Just stuff him on coffee and the toughest of men will eat their diet.

And evil and badness will be it.

It is pickles and mustard, it raises the devil in you. It is eggs and such stuff that he likes him tough—

So let's put them under As the first of the spring. From these bounteous Jail pests, Bill Trager should try to get their diet.

And thereby reform all the it.

SOCIETY.

BY VIRGINIA WOODS

As a farewell courtesy to Mrs. G. Wiley Wells, who is to leave this week for a tour of the world, Mrs. Willoughby Rodman entertained at a tea yesterday afternoon at her home on Orchard avenue. Sharing honors with Mrs. Wells were Mrs. C. G. Stanton and Mrs. Alice Lynch, who have just returned from Mexico.

The rooms and tea table were adorned with baskets filled with a gorgeous array of spring flowers. Assisting Mrs. Rodman were Mrs. Allan C. Balch, Mrs. Ernest A. Bryant, Mrs. C. C. Carpenter, Mrs. Cliff Page, Mrs. James Rathwell Page, Mrs. Albert Crutcher, Cliff Page, Jr., and Mrs. Frank Peard.

Admiral Rodman Gives Dinner. Admiral Rodman was host at dinner, last evening aboard the New Mexico.

To Visit in Santa Barbara. Mrs. Walter Edgar Mullineux and Mrs. Robert Norris will leave next week for a ten days' visit with Mrs. William Barnard Cunningham, mother of Mrs. Mullineux.

For Miss Bottler. Miss Cecelia Bottler, who is leaving Thursday for a tour of the world, was yesterday honor guest at a prettily arranged tea given by Mrs. Edward H. McLaughlin of 402 South Western avenue. The guests included debutantes and young matrons.

Mrs. J. J. Hanrahan, Jr. will give a tea for Miss Bottler this afternoon. She is being assisted by her sister, Miss Gladys Carson and by Mrs. Richard Megan and others.

Has Returned Home. Mrs. Geraldine Graham of Montecito, who was visiting her grandparents, Mr. and Mrs. Thomas H. Pollock, has returned home. She and her mother, Mrs. William Miller Graham, are soon to leave for a tour of Europe, but before they go will make a short visit in Los Angeles.

Naval Wedding. The marriage of Miss Kathleen O'Hara of Toronto, Can., and Lieut. Commander Lucien Cooke Williams, Dental Corps, U.S.N., in Long Beach, Saturday afternoon was an interesting event in naval circles and Long Beach society. The bride is a daughter of Mrs. Henry Robert O'Hara of Toronto. The ceremony was performed at the Congregational Church by Chaplain Evan W. Scott, U.S.N., assisted by Rev. Dr. Booth.

The bride wore a gown of white satin veiled with tulle and trimmed with pearls and orange blossoms. She carried a shower bouquet of white roses and lilies of the valley. She entered with Commander Williams, U.S.N., and was given in marriage by her mother, Mrs. Alexander Campbell Kidd, who wore a frock of pink and orchid organdie, with picture hat, and carried Ophelia roses, was matron of honor. Elizabeth Bradner and Betty Short were dainty flower girls. They wore organdie dresses and hats and carried baskets of pink and orchid sweepings.

Lieut. Martin O. Griffin, U.S.N., was best man and the ushers were Lieut. Allen E. Smith, Allen P. Flagg, Frank J. Hanfater, and John L. McCrae, U.S.N. A reception at the home of the bride's mother followed the ceremony. Lieut. Commander and Mrs. Williams will make their home at Long Beach. He is attached to the U.S.S. New Mexico.

For Miss Reicher. In honor of Miss Hedra Reicher, Edward S. Curtis and his daughter, Miss Beth Curtis, gave a supper party and reception in their studio home. Among the guests were Mr. and Mrs. Emmett Davis (Mrs. Mariska Aldrich), Miss

Maeka Aldrich, Clementine Ashley, Henry D. Davis, Mrs. L. Dock, Mrs. M. Daniels, Mr. and Mrs. Charles F. Zaruba, Mr. and Mrs. Ferdinand Earle, Mr. and Mrs. J. K. Flanders, Mrs. Gifford, Mrs. Herbert Hastings, Mrs. Faye Hughes, Miss Mathilda Mueller, C. F. Machtyre, Mrs. Leola Sloan-Orritt, Mrs. Matthew S. Robertson, Miss Aline Schaffer de Soos, Andor Schaffer de Soos, Mr. and Mrs. Richard Sterling, Miss Barbara Tennant and Miss Fannie Warren.

A House Guest. Miss Martha Greeley of San Francisco has been a much feted visitor while the house guest of Miss Ruth Kellogg. Last week Miss Kellogg gave a charming music tea in her honor.

Engagement Announced. The engagement of Miss Marion Strange, daughter of Mr. and Mrs. A. Strange of 1765 North Bronson avenue to Kenneth C. Albright, a young architect of this city, was announced at a meeting of the Theta Sigma Phi Sorority at the home of Mrs. Melvin Miller Strickler of South Normandie avenue. The wedding date is set for early autumn. The table was centered with pink roses and ferns and plates were set for Misses T. Hamilton Baird, Robert C. Blair, Norris B. Messer, Strickler, and Misses Emily Mumford, Molly Peck, Florence Pessell, Helen Preston, Madge Pettit, Esther Elmers, Jessie Davis, Hazel Montgomery and Alma Thompson.

Marriage Announced. Mr. and Mrs. W. P. Roberts of 164 East Forty-first street, Los Angeles, announce the marriage of their daughter, Miss Mary Lucille Roberts to Earl S. Eastham of Culver City. The bride is a sister of Mrs. Harry H. Culver of Culver City.

Personal Mention. Mrs. M. Allen of 673 South Ardmore avenue will be leaving soon for her summer home in the East, where she will remain until November.

Mr. and Mrs. J. C. Mordough, of Orange Drive, Hollywood, motored to Redlands for the Rose Festival, stopping at Riverside and Pomona.

Miss Katherine Bush Kelly of Louisville, Ky., who has been spending several months in San Diego, is now a guest of Mrs. R. L. Tenney of this city.

The Daily Fun Hour. BY HONOR WALSH.

JACK THE GIANT KILLER. As described in "Shadow Mums," an electric light (or a lighted candle in a pan of water) should be placed on the floor about two yards from the sheet-curtained doorway, on the other side of which the spectators sit in dark room. These shadow-dramas require careful rehearsing beforehand. Jack stands very close to the illuminated sheet, and the giant (another boy of ordinary size) stands five feet away from the sheet. Jack has a small sword and the giant carries a larger ax— all cut from pasteboard.

Jack and the giant fight; the giant falls down. Jack makes him rise for another fight; then, at sword-point, drives the giant close to the curtain, where he dwindles down to boy size, while Jack, by moving backwards, suddenly grows tall. The hero retires with the giant under his arm and the audience, making a graceful bow, he appears to vault up in the air and through the ceiling. In reality the only leap over the light placed on the floor. That is why great care should be used when placing shadow pictures without an electric light, since all comical exits are made by jumping over the light.

Other fairy tales may be turned into amusing shadow pictures after one "dress rehearsal."

NAME A RECEIVER. An involuntary petition in bankruptcy, involving the affairs of John W. Friedman, operating as the Central Motor Sales Company, was filed in the United States District Court yesterday. The petitioning creditors are the United States Rubber Company, with a claim of \$188,885; P. L. Herrick, with a claim for \$154, and C. A. Thompson, to whom is due \$165, according to the bill. Several acts of bankruptcy are charged against Friedman and W. M. Moore, Jr., was appointed receiver of his business under a bond of \$1500.

DEPUTY'S CHILD DIES. Novella Couss, age 13 years, daughter of Deputy Sheriff R. Lee Couss and Mrs. Ada Couss of 1652 Seventh avenue, died Sunday at St. Vincent's Hospital after an illness lasting four weeks. Death was due to a complication of diseases believed to have started from an attack of measles. Every effort to save the child, including an operation, failed. Funeral services will be conducted at the Cunningham & O'Connor undertaking parlors.

THE PATTERNS ARE KEPT IN THE LOS ANGELES OFFICE OF THE TIMES. TO GET PATTERNS SEND THE PRICE (IN STAMPS OR WELL-WRAPPED COINS) AND THE NUMBER AND SIZE OF THE PATTERN DESIRED TO THIS ADDRESS:

FASHION DEPARTMENT, Los Angeles Times, 220 South Wells St., CHICAGO, ILL.

All orders will be handled by this branch office in Chicago, and in order to eliminate the delay in forwarding we have arranged to have orders sent direct to the Chicago office.

The patterns will all be special patterns made for The Times.

Look What's Here! High neck and long skirts are the features of this season's Grouzet (Paris) frock with its military-looking embroidery and simple lines. (Photo copyrighted by Talbot from Keystone View Co.)

Fashion's Forecast

No. 9,951—Lady's and Miss' Coat. The long-waisted fitted dress of No. 9,951 expresses the new spring mode. The three-piece pattern is cut circular to produce the decided flare. The lady's and miss' coat, No. 9,951, is cut in size 16 years, 32, 34 and 36 bust. Size 36 requires

BY MYRA NYE.

Today it will be all over but the shouting. Only one will shout, however. Yesterday six candidates for Mayor shouted as in turn they were put through their paces in the last lap of the race. The grand stand was the Woman's City Club, the judges were the women that crowded the place, and the entrants appeared in the following order: George H. Cryer, a representative for W. L. Smith, Mayor Snyder, Boyle Workman, Alfred A. Wright and Hayden Morgan.

Mr. Cryer emphasized his belief in the strict enforcement of existing laws, but frankly declared he was opposed to the proposed blue laws. "I myself observe the first day of the week as Sabbath, and I believe in Sabbath observance," he said. "But I know there are many who prefer to observe another day of the week as their day of rest. I would not be a party to the making of laws that would infringe on the religious liberty of those who are as much right as I. It is not, however, for the officials of the city to dictate as to these matters. It is a clean, harmonious, efficient administration of the business and civic affairs of this city with which I should be concerned were I Mayor."

The representative for Mr. Smith talked of the Socialist party. Mayor Snyder, who followed, said his platform was identical with Mr. Cryer's. "A clean, harmonious and efficient administration," he said. Boyle Workman, a native of Los Angeles, reviewed authoritatively the growth of the city, contrasting its needs of today with those of 1886, '87 or '88, when as a young man just out of college, he was secretary in the office of his father, then Mayor of the city.

MUST HAVE HARMONY. "Experience has shown me that it is of vital importance to Los Angeles for the Mayor to work in harmony with the City Council," he said. "As Mayor I shall co-operate with the members of the City Council, as well as with the heads of all city departments in order to give Los Angeles an efficient, businesslike administration."

"The finances of the public service department should be rearranged so that the revenues of the water and power departments can be utilized toward relieving the taxpayers of their unnecessary burden."

"I am anxious to see Los Angeles, the city of my birth, forge ahead until it becomes the greatest city in the world and it is natural that, as a native son and citizen, who loves every square foot of ground in Los Angeles, I should stand for harbor development. As Mayor I shall appoint to the Board of Harbor Commissioners men of proven and outstanding ability."

Mr. Workman called attention to the fact that he had received the largest number of votes cast for any candidate on the municipal ticket on June 3, 1919. His assertion that he was opposed to Sunday blue-law legislation and that he believed it the right of everyone to attend a church, a baseball game or a motion-picture theater any day they desired was received with applause.

Mr. Wright said he opposed a tax on mediums as the spiritual world has no need of mediums to work unhindered by any taxes. Mr. Morgan boldly stated that he believed in revolution, but stated

that the audience could not understand him because he was of the labor class and they were not.

"You are mistaken, Mr. Morgan," said Mrs. Herman S. Darling, presiding, "the majority of us are women who work, but the Woman's City Club does not approve of so much talk about classes. We think it un-American." The quick applause of the women showed their agreement with their president.

At the close of each candidate's presentation of his own platform opportunity was given for members to ask the speakers questions from the floor. It was Mr. Cryer that received the bombardment. Scolded before in the history of this club, of lively sessions had there been one quite so lively. Mrs. S. D. Creiger started the fireworks when she asked Mr. Cryer concerning his alleged signature to a communication regarding "medical freedom," supposedly sent out by the Medical Association. This elicited heated questions from representatives of four different schools of healing, Dr. Lulu Peters, Dr. Mae Parsons, Mrs. Rosamond Rae Wright and Mrs. Emma Livingston Reed. The substance of Mr. Cryer's answers to advocates of medicine, the osteopaths and antivivisectionists was, "I stand for medical freedom under the law."

The following petitions for club officers were received by the nominating committee for the election on the first Monday in June: President, Mrs. J. B. Stearns; first vice-president, Mrs. Emma Reed and Mrs. Rose Bryant; second vice-president, Mrs. Frederick Hickok and Mrs. H. C. Fallang; secretary-treasurer, Mrs. Robert T. Brain; for three directors, Mrs. E. C. Calvin, Mrs. John Coleman, Mrs. Paul Flammer, Mrs. T. J. Hurley, Mrs. John Summerfield, Mrs. E. V. Dowling, Mrs. Frances Noel and Mrs. M. E. Jenkins.

Chamberlain's Tablets Are Mild and Gentle in Effect. The laxative effect of Chamberlain's Tablets is so mild and gentle that you can hardly realize that it has been produced by a medicine.

The representative for Mr. Smith talked of the Socialist party. Mayor Snyder, who followed, said his platform was identical with Mr. Cryer's. "A clean, harmonious and efficient administration," he said. Boyle Workman, a native of Los Angeles, reviewed authoritatively the growth of the city, contrasting its needs of today with those of 1886, '87 or '88, when as a young man just out of college, he was secretary in the office of his father, then Mayor of the city.

MUST HAVE HARMONY. "Experience has shown me that it is of vital importance to Los Angeles for the Mayor to work in harmony with the City Council," he said. "As Mayor I shall co-operate with the members of the City Council, as well as with the heads of all city departments in order to give Los Angeles an efficient, businesslike administration."

"The finances of the public service department should be rearranged so that the revenues of the water and power departments can be utilized toward relieving the taxpayers of their unnecessary burden."

"I am anxious to see Los Angeles, the city of my birth, forge ahead until it becomes the greatest city in the world and it is natural that, as a native son and citizen, who loves every square foot of ground in Los Angeles, I should stand for harbor development. As Mayor I shall appoint to the Board of Harbor Commissioners men of proven and outstanding ability."

Mr. Workman called attention to the fact that he had received the largest number of votes cast for any candidate on the municipal ticket on June 3, 1919. His assertion that he was opposed to Sunday blue-law legislation and that he believed it the right of everyone to attend a church, a baseball game or a motion-picture theater any day they desired was received with applause.

Mr. Wright said he opposed a tax on mediums as the spiritual world has no need of mediums to work unhindered by any taxes. Mr. Morgan boldly stated that he believed in revolution, but stated

that the audience could not understand him because he was of the labor class and they were not.

"You are mistaken, Mr. Morgan," said Mrs. Herman S. Darling, presiding, "the majority of us are women who work, but the Woman's City Club does not approve of so much talk about classes. We think it un-American." The quick applause of the women showed their agreement with their president.

At the close of each candidate's presentation of his own platform opportunity was given for members to ask the speakers questions from the floor. It was Mr. Cryer that received the bombardment. Scolded before in the history of this club, of lively sessions had there been one quite so lively. Mrs. S. D. Creiger started the fireworks when she asked Mr. Cryer concerning his alleged signature to a communication regarding "medical freedom," supposedly sent out by the Medical Association. This elicited heated questions from representatives of four different schools of healing, Dr. Lulu Peters, Dr. Mae Parsons, Mrs. Rosamond Rae Wright and Mrs. Emma Livingston Reed. The substance of Mr. Cryer's answers to advocates of medicine, the osteopaths and antivivisectionists was, "I stand for medical freedom under the law."

The following petitions for club officers were received by the nominating committee for the election on the first Monday in June: President, Mrs. J. B. Stearns; first vice-president, Mrs. Emma Reed and Mrs. Rose Bryant; second vice-president, Mrs. Frederick Hickok and Mrs. H. C. Fallang; secretary-treasurer, Mrs. Robert T. Brain; for three directors, Mrs. E. C. Calvin, Mrs. John Coleman, Mrs. Paul Flammer, Mrs. T. J. Hurley, Mrs. John Summerfield, Mrs. E. V. Dowling, Mrs. Frances Noel and Mrs. M. E. Jenkins.

Chamberlain's Tablets Are Mild and Gentle in Effect. The laxative effect of Chamberlain's Tablets is so mild and gentle that you can hardly realize that it has been produced by a medicine.

Look What's Here! High neck and long skirts are the features of this season's Grouzet (Paris) frock with its military-looking embroidery and simple lines. (Photo copyrighted by Talbot from Keystone View Co.)

BISHOP & COMPANY, Los Angeles.

Oil, Mines, Lumber

The mineral production of California for 1920 is estimated to be worth \$242,000,000.

The oil production is estimated to be 105,618,706 barrels.

Three hundred and seventy-five sawmills produced one billion, five hundred million feet of sawed lumber—worth over \$60,000,000.

One of the dominant features of the Bank of Italy has been its willingness and ability to back the worthy industries of California.

Any substantial enterprise always receives our thoughtful consideration. This liberal spirit of co-operation has helped to build California's largest financial institution.

The Bank of Italy has over 225,000 depositors.

STATE CRIPPLED BY RAIL RATES.

Investigating Committee is
Ready with Protest.

Commerce Body Examiner
to Hear Shippers' Pleas.

Declare Transportation Act
Saddles Big Tax on Us.

Henry J. Ford, special assistant
examiner of the Interstate Commerce
Commission, will call to order a
conference at 10 a.m. today of citrus
and vegetable shippers and the car-
riers at the Federal Building. By
this conference the shippers hope to
show the many reasons for relief
from the oppressive freight rates
growing out of the enforcement of
the Federal Transportation Act of
1915.

The Interstate Commerce Com-
mission arranged the conference fol-
lowing a request for this action by
the California Legislature, which
passed a resolution introduced by
Senator King to that effect.

The opening statement for the cit-
rus interests will be made by Sen-
ator King. It is expected that the
conference will continue for about
three days.

Other statements in behalf of the
shippers will be made by C. M.
Brown, Redlands; E. M. Lyon, Red-
lands; Harry Chase, Riverside, and
Volney Craig, San Fernando.

C. C. Teague, president of the
California Fruit Growers' Ex-
change; Earl G. Desell, assistant
general manager, and George E.
Farrar, counsel for the organiza-
tion, will present conditions as they
exist in the lemon and orange
business.

The California Citrus
League will represent the citrus
shippers and a meeting for the
purpose of outlining their case for
presentation was held yesterday
morning in the Consolidated Realty
Building.

Similar purpose was for about
three days.

FIGURED BY ACRES.
In connection with the effect on
the shippers of the high freight
rates the report of a representative
committee of the principal food pro-
ducing and shipping interests of the
entire State is of great significance.

This report was prepared after care-
ful investigation, which was followed
by a statement of the increased freight
rates brought about by the enforce-
ment of the Federal Transportation Act of
1915, which to the citrus growers is

Bullock's Five Furniture Days!

—Five Days of concentrated efforts upon Exceptional Values in Furniture, Bedding, Rugs, Draperies and Lamps. Every bit of Merchandise concerned is of high character and desirability. The Savings that the new low prices enable are not to be ignored! Today is the Second Day of this Event. Friday will be the last. Delay in sharing may mean disappointment, for in some instances quantities are limited. Listed below are a few unusual Values in Furniture.

This 4-Piece Reed Set, \$222.50

—Well made of closely woven reed; strongly constructed and attractive; Ideal for Summer use on the Porch or in the Sun Room; priced separately the Chaise Longue is \$65.00—the Table is \$35.00—the Settee is \$30.00—the Chair is \$42.50; at \$222.50 complete this value should prove a pleasant surprise.

INTERESTING

An Impressionistic Hat is of pale green organdy and green hemp, entirely hand-made. Leaves and grapes are made of the organdy—masterpieces in themselves, and laid around the crown. One can imagine its effectiveness above sea-blue eyes and yellow hair! Third Floor.

Table, \$19.75

A solid mahogany End Table
with fluted legs and cane shelf;
of good appearance and use-
fulness; specially priced at \$19.75.
Only eighteen of these.

Table, \$42.50

An attractive Davenport Table
of good mahogany finish; special
priced for these Five Furniture
Days at \$42.50. Fifteen of these
at \$42.50 each.

Rocker, \$16.50

Brown Fiber Rocker with loose
cushions, upholstered seat and
back; has comfortable spring
bottom construction; at \$16.50
this is an opportunity.

45-lb. Cotton Mattresses, \$9.75

—Strongly made; have roll edges; are of re-
inforced construction; have four rows of firm stitch-
ing; signal values at \$9.75.—Seventh Floor.

35-lb. Floss Mattresses, \$14.75

All floss filled; have roll edges; are well made
with reinforced construction; unusual opportu-
nities to save at \$14.75 each.—Seventh Floor.

5000 Yards 35-in. White Airplane Linen, 65c Yd.

Wednesday at Bullock's

—This is made of the very finest flax and has been grass bleached pure white and thoroughly shrunk. In fact, it was
woven 38 inches wide, but has been shrunk to 35 inches.

—This white linen was made in Ireland according to French Government specifications, and was intended for airplane
wings. It has a fine, soft, glistening finish and is most satisfactory for the making of luncheon cloths, napkins, scarfs, pil-
low tops, men's and boys' shirts, pajamas, women's blouses, smocks, dresses, skirts, children's dresses—in fact, for any-
thing that requires a fine white fabric.

—Its price, 65c a yard, is really but a fraction of the prices at which similar white Irish linens are selling today.

—At Bullock's—Wednesday—Second Floor.

Women's Fadeless Lissue Handkerchiefs at 25c

—will be an interesting feature at Bullock's on Wednesday. They are
made of English Lissue—that fine, soft, delicately woven weave—and have
woven-on borders of white tape or of color in the form of stripes. Many
new patterns are in evidence.

—Lissue handkerchiefs are, doubtless, the only colored ones which one
may boil, knowing they will not fade.

—It would, perhaps, be the part of wisdom to buy these Fadeless Lissue
Handkerchiefs in half-dozen or even dozen lots—tomorrow, Wednesday, at
Bullock's—First Floor.

Women's Wool Tailored Bullock Suits \$34 and \$44

Higher in Quality Than Their Prices Suggest—
—are to have a day of sale of their own today.
Tuesday.

—The Suits at \$34.00

have been repiced in regular stock and include Suits
of Tricotine, Poirer Twill, United States Serge and
Mansh Mixtures; and in Blouse, Box, Ripple-Hip
and Belted Styles; beautifully lined with silk.

—The Suits at \$44.00

are of especially fine Tricotine, Twill-Cord and Velour
Checks; and the styles include all of this season's fa-
vored models—Box, Blouse, Belted, Ripple-Hip,
Straight-Line; and are dignified with braidings, em-
broidery, self-piping, etc. Linings are of soft, finely-
woven silks.

—At Bullock's—Today—Tuesday—Garment Sec-
tion—Third Floor.

Hairdressing

—Bullock's has engaged the
services of a New York ex-
pert in Permanent Waving,
Hair Dyeing, Marcel Wav-
ing, etc., who is absolutely
alone in his class. Mr. Marcel
gives each patron his undivid-
ed personal attention.

—If you have hair problems
to solve it undoubtedly would
be wise to consult Mr.
Marcel.

Extension Table and Four Chairs Complete

A Sale of Toiletries

Unique—in That One Magic Price Buys
Any of These Nine Toilet Essentials

59c

One price covering a comprehensive group—each item not only tremendously reduced but commanding unusual popularity.

Ivory Finish Dressing Combs, a Feature at 59c
The very heavy combs that add to the appearance of a dressing table—and are so serviceable. This price is very much reduced.

Fine Quality Bathing Caps, 59c

And in addition to quality one finds very pretty designs and colors. A choice at 59c.

Anita Theatrical Cream, 59c

The purest and best made—a wonderful skin food as thousands of women will testify. Notably reduced at 59c.

Savon Castile Soap, 2 Bars 59c

So mild is Savon Castile that the tenderest skin is not harmed in the slightest by the use of it. Very much underpriced.

Vaseline's Corylopsis, 59c Bottle

A delightful toilet water—in four ounce bottle, the regular price so much more than 59c.

Hirsutine Hair Tonic, 59c Bottle

A very wonderful tonic that not only is extremely beneficial but lends to the hair a very lovely gloss. Underpriced 59c.

"Keep Clean" Hair Brushes, 59c

Soft penetrating bristle brushes that have been reduced materially for today.

"Pretty Baby" Perfume, 59c Ounce

An exquisite scent—and lasting—far less than usual at 59c an ounce.

"Martelle's" Complexion Powder, 59c

Absolutely pure, the regular price being such as one would expect to pay for the very best powders.

(Hamburger's—Main Floor—Today)

Marquissette, 25c Yard

Think how little the curtaining of all the rooms will amount to at this price. Superior quality marquissette, 36 inches wide, in white, ivory and cream.

(Hamburger's—Third Floor—Today)

New Cretonnes, 45c Yd.

Dainty light grounds, rich dark colors—these are the new cretonnes, far less than usual at 45c a yard. The summer home can be a brighter place in which to live with a few of these pretty cretonnes to make it summer in appearance. Special 45c.

(Hamburger's—Third Floor—Today)

Fine Black Enamel Duck Visiting Cases at 8.75

Beautifully cretonne lined so that one feels like packing "pretties" in them. The corners are protected with leather. Both 24 and 26-inch sizes at this Tuesday price.

(Hamburger's—Fourth Floor—Today)

Inlaid Linoleum at 1.75 a Square Yd.

The regular, splendid quality, straight-line colors through to the back, both tile and parquetry patterns. This feature price does not include the laying of the linoleum.

(Hamburger's—Third Floor—Today)

Axminster Rugs

The high pile and choice patterns, both oriental and conventional, mark them as distinctly high value rugs even though the price is low. Rose, blue and taupe colorings. Size 8x10.6 at 42.50.

(Hamburger's—Third Floor—Today)

A Great Stock Imported Art Wares at 1/2 Price

The most magnificent assemblage of rare pieces ever offered at such a price reduction.

An event comprising 15,000.00 worth of imported objects d'art to be sold at exactly one-half. The entire open section of the Art and Gift Shop is given over to this enormous sale display.

Those appreciative of the really fine things in art can profit royally in this event. A few of the art wares included:

	Terra Cotta Statuary

(Art and Gift Shop—Third Floor—Today)

42-Piece Cottage Sets, 9.50

The famous Pope Gossier American semi-porcelain sets, too, at this price. The gold and white decorations are just as most people choose even at much higher prices. The sets—for homes and summer cottages, comprise 6 cups and saucers, 6 plates, 6 bread and butter plates, 6 individual butter chips, 6 fruit dishes, 1 bowl, 1 platter, 1 sugar and 1 creamer.

(Hamburger's—Fourth Floor—Today)

1000 Tumblers, 6 for 50c

An opportunity to buy complete sets for the table or to fill in broken sets. This blown tumblers, very unusual at such a price as this.

Pyrex Pie Plates, 85c

Deep or shallow, reduced to a price that will instantly appeal to all housewives. For this is the guaranteed "Pyrex" in effect for today only at 85c.

(Hamburger's—Fourth Floor—Today)

Values Supreme—Again Proving That It Pays to Acquire the Tuesday Shopping Habit

Have you joined the throng of enthusiastic shoppers who make it a business to SAVE on apparel, home decoratives and furnishings? Don't allow this Tuesday to slip by for the values in every instance seem almost too good to be true.

Silk Top Vests, 1.15

A vest that to all appearances is all silk—yet twice this price could not buy such as that. The tops are fine quality jersey and the body of very fine cotton. Band or bodice top in flesh only, at a price to warrant a clearance of stocks.

(Hamburger's—Second Floor—Today)

Imported Dress Ruffling, 25c Yard

Net and organdy, in the loveliest soft cream color, some with edges in tints. For ruffly summer frocks how charming they will be at such a saving. Others at 50c a yard.

(Hamburger's—Main Floor—Today)

Imported Dress Laces

Super Values, 1.00 Yard

It was really a surprise to us that they could be bought to sell for this price—but here they are, loveliest flax and Swiss meshes—with many orientals in the group. Width 12 to 18 inches.

(Hamburger's—Main Floor—Today)

Seco Silk Kimonos

Featured at 3.95

The dainty, cool, summery kimonos—almost like silk and yet at a phenomenal price. Just the thing for vacation trips. Terry Cloth and Corduroy Robes are priced at the same attractive figure. For the beach everyone is wanting Terry cloth robes—and for home wear the corduroy is ideal.

(Hamburger's—Second Floor—Today)
